QUESTIONS & Answers

STUCK IN A RUT?

Can't get past that end-of-level boss? If you've got a **problem** on any PlayStation game, we're here to help you. Send your gaming questions to: **Q&A, PowerStation, Paragon House, St Peter's Road, Bournemouth BH1 2JS.** Please note that we can only print answers in the magazine and not send personal replies.

DEATHTRAP DUNGEON

Q...from Samuel Barber, Norwich
I'm having a bit of trouble with the game. I can't seem to get invincibility.

A We take it you've tried that dodgy invincibility code that's been printed in certain other magazines (spit!) Well, we can confirm that it definitely doesn't work – Eidos has told us that there is no such cheat in the game, only the level select.

DRIVER

Q...from YS, Peterborough
I have all the cheats on *Driver* and all the tips, but I still can't do the reverse 180° in the car park. My mates find it hard, too. I would be grateful if you could tell me, because you are number one.

A Just for you, here's the full guide to completing the car park test...

Start by accelerating towards the opposite end. Before you reach the wall, execute a *handbrake* turn with your car spinning 180°. This will cross off these two as well as the *speed* test. Accelerate using the *burnout* button towards the centre of the garage, then release the burnout button and accelerate whilst turning hard to the right/left until your car spins around 360°. Race around the outside of the garage pillars to complete a lap, then turn into the next pillar and start your

slalom test. As you complete the slalom, race towards the other side of the garage – braking hard (*brake test*) before you hit the wall. Now switch to the reverse camera view and reverse back the way you came, then turn hard and release the accelerator to finish the test with the *reverse 180°*.

DUKE NUKEM 3D

Q...from Jamie Brett, West Midlands
I am finding it hard and I can't get past level 2. My friends say that there are cheats for *Duke Nukem 3D*, but they don't know what they are. Please can you help me with my problem?

A Sorry Jamie, but your friends are wrong – they must be thinking of the sequel, *Time To Kill*. There are no working cheats for the original *Duke Nukem 3D*.

GEX: DEEP COVER GECKO

Q...from Natalie Rogers, Swindon
In the Clueless level, on two high ledges I can see a Paw Coin and a B-Coin. How do I get up there?

A We take it you mean the Clueless room (level entrance) in Mission Control – we've answered this one before... If you stand under the crocodile and look (hold Δ) at the vampire picture, Gex will turn into a vampire. However, even with his

floating ability, reaching those high balconies isn't easy. You have to tail-bounce up to the vampire picture and tail-bounce off it (keep trying) for extra height, then quickly hold R2 to float down to the balcony with the Paw. From here you can tail-bounce and float to the other balcony with the B-Coin.

METAL GEAR SOLID

Q...from James Sly, Buckingham
After playing the game a week, I can't get any further than the B2 Armoury. I have been told by several people that you

QUESTIONS & ANSWERS

Q&A

▲ Use C4 to blow a hole in the weak wall.

▲ The Medicine is found in this room.

▲ Another section of weak wall to blow up.

have to use a C4 to blow up a weak spot somewhere. Please could you tell me where it is?

A To discover what a weak wall section looks like, there's one either side of the elevator. Using the C4, place it against the weak section, stand back, and then blow a hole in the wall. You'll find a Stun Grenade x3 and a Chaff Grenade x3 in the west section; the east section contains two Socom/Bullet x12 and a C4 x2 (which replaces the two you've just used).

Now that you know a weak wall when you see one, you'll find the exit out of this area in the southwest corner. Blow the wall, then head through the gap. There are two more weak spots to take care of: one on the left wall (on Snake's left as you walk down, that is!) towards the bottom; the second on the far wall towards the left (if you place the C4 on the wall directly opposite your makeshift entrance into this corridor, you'll blow a hole into a secret room containing the camera). The final explosion will take you through to President Baker, and the first boss... Revolver Ocelot.

Q ...from Robert Shuker, Newtown, Powys

I have caught a cold and I have heard that you can get medicine to cure it. Can you please tell me it is, as I can't complete the game without it?

A Yes, try asking for Beechams in your local Boots... oh right, in the game! You find the Medicine when you revisit the Nuke Building (Level B1) after the torture session. Go into the south room (opposite the elevator). Enter the middle room on the west side of it. In here you will find the Medicine. Collect it, then continue through to the Commander's Room (where you fought Psycho Mantis) and on into the Caves.

SILENT HILL

Q ...from Eleanna Kapolla, Greece

I have finished the game in Easy mode Normal mode. But how do I get to the Katana? I have searched the whole house (with the doghouse outside) and I haven't found the key for the room containing the Katana. Do I have to finish the Hard mode?

A To unlock the Katana, you have to complete the game with the Bad+ ending and a Gold rating for saves - ie 2 or less. The Katana will then be shown on the final stats screen.

Now start a Next Fear mode game, enter the house on Bachman Street (using the key from the doghouse, as normal), and you'll find the Katana behind the door on the side of the hall (that was locked previously). For everyone one else asking about the

RESIDENT EVIL

Q ...from Angelo Lattuca, Bedford

I'm playing a Chris and I am stuck on the part where you have to mix the chemicals to make V-jolt. Every time I click on something, it says, "It's useless, Chris can't mix chemicals." So what do I have to do?

A If you're playing as Chris, the sequence of events means that you need Rebecca to prepare the V-jolt concoction. Before you meet Plant 42, go to the door with the electronic keypad inside the Beehive Passage. Now mess around with the button sequence - the aim being to light up all of the lights. Enter the Drug Storehouse and look around before exiting again.

Now when you're confronted by Plant 42, you'll automatically throw the V-Jolt report to Rebecca, whom you'll then have control of to make the potion. Go back to the Drug Storehouse, pick up the four empty bottles, and get ready for a crash course in chemistry.

The key to the ingredients is as follows:

Water (from the sink) - No. 1

UMB (from shelves across from sink) - No. 2

UMB No. 4 (from shelves on far side of room) - No. 4

Fill a bottle with 1, fill a bottle with 2 and mix the two together to make 3. Fill a bottle with 4 and mix with 3 to make 7. Now fill a bottle with 2 and then fill another with 4: mix them and add to the 7 to make 13. Fill a bottle with 1 and another

bottle with 2 and mix together to make 3. Finally, mix 13 and 3 together and you'll have the V-Jolt. Now go down to the basement and into the Security room where the roots are to be seen poking through the ceiling. Use the V-Jolt on the roots to make them wither.

As Rebecca leaves the room, Plant 42 throws Chris to the ground and you're back in control to finish the meddlesome plant off.

SOUL REAVER

Q...from Jim Donoghue, Co Tipperary

Two parts of the brilliant *Soul Reaver* appear to be missing in the game!

1. Where's Turl and the Turelim vampires (p27 of manual)?

2. Where's the Shift Glyph (p22 of manual)?

Are these bonuses, and if so, how do you get them?

QUESTIONS & ANSWERS

Q&A

- A** 1. Apparently, these are the strange big-eared baddies near the end of the game.
2. You already have it at the start of the game: it enables you to shift between the spectral and material realms.

WWF ATTITUDE

Q ...from Chris Barrett, Blackpool

How do you call in your run-in partner to help you during a match? Also, in Tag Team mode, how do you do double-team

moves on your opponent? The CPU seems able to do both, but I can't do any – it's not fair!

PS. All hail Mouthy Mark and his pearls of wisdom and that's the bottom line 'coz Mouthy Mark said so!

A To call in your run-in partner for help, when your energy is on red and your opponent's on green, press and hold L1 + L2 + R1 + R2 + Select.

In Tag Team mode, press R1 + X to call in your partner, then try out these

double-team moves (thanks to Dave Vernon of Derby)...

Wishbone Leg Splitter: Opponent dazed on floor – stand by feet and press **O** repeatedly together.

Double Powerbomb: The Acolytes' finisher! Opponent dazed standing – one player stand behind, the other in front and press **O** repeatedly.

Double Hanging Vertical Suplex: Opponent dazed – both players stand in front and repeatedly press **O** together.

TOP TEN MOST WANTED

Every month we answer the top ten **most-asked** questions from readers.

1. SOUL REAVER

Your #39 guide said that in the Bell Tower, you should use the Soul Reaver projectile attack to shoot off the five blocks stacked on top of each other. But this doesn't work – how can I separate the blocks?

We apologise for the mistake. Instead you need to push the stack over to the low ledge, then climb onto the latter and push the blocks off repeatedly until you have separated them. You can then put the blocks into the right holes to open the second switch in the Organ Room.

2. SILENT HILL

In your issue #38 walk-thru, point 77, it says to enter the back garden through the gate, proceeding into the house. Well I have tried this, but the door was locked. How do you open it?

You need the K Gordon Key from the Boiler Room, after defeating the Lizard. Points 71–74 should have read:

71. After a few shots the beast will die and you'll be back in the Boiler Room.
72. Pick up the K Gordon Key, then proceed up to the 1st floor.
73. When you reach the 1st floor there will be a short scene.
74. Now head towards the lobby and exit the Elementary School.

3. SOUL REAVER

At the end of the Bell Tower, when you step on the pressure plate to open the door by the first bell, I run for it but it always closes before I can get through. How can I make it in time?

There is a simple trick to this: once you've stepped on the pressure plate, shift to the Spectral plane to freeze time! You can then easily get through the door before it shuts.

4. METAL GEAR SOLID

Are there any cheats to help me complete the game? How do I survive Ocelot's torture session and is it essential for completing the game?

No, there are NO cheats – only codes for Action Replay and Fire Explorer cartridges. To avoid submitting to the torture, you simply have to hammer the **O** button rapidly until the blue bar reaches zero (or find a turbo-fire joystick that works). Although you can submit and still complete the game, you'll get a different ending – and be awarded the Stealth Suit instead of the Bandana.

5. FINAL FANTASY VII

How do I defeat the Emerald and Ruby Weapons?

A. To do this, you need the Final Attack Materia. To get this, go to the Battle Square and get 64,000 points so you get the eight harder battles. Complete these and you get a new set of gifts, including the Final Attack Materia.

6. BROKEN SWORD

How do I get past the goat in the castle?

A. Everyone gets stuck on this. Approach the goat to the right of the trough (by left-clicking on the ladder). As soon as the goat knocks you over, click on the

ploughshare on the far left. When the goat is trapped, go to the ladder and enter the excavation.

7. FINAL FANTASY VII

How do you get the Guidebook, Desert Rose, and Earth Harp for the Kalm Traveller?

The Guidebook is in the tunnel leading to the sub pens, below the Underwater Reactor. To get it you have to encounter a creature called the Ghost Ship. Knock off most of his energy, then finish him off with the Morph Materia to turn him into the Guidebook. Take it to the Traveller to get the Underwater Materia. The latter is needed to eliminate the 20 second timer when fighting the underwater Emerald Weapon: defeat it to get the Earth Harp. Give this to the Traveller in exchange for the three Master Materias (Summon, Magic, and Command). Once you've defeated the Ultimate Weapon, you can battle the Ruby Weapon near the Gold Saucer. Defeat this to obtain the Desert Rose, then take the latter to the Traveller to exchange for a Gold Chocobo.

8. TOMB RAIDER III

On the Crash Site level, after helping the soldiers kill the raptors, how do I get across the water? The bridge collapses and I'm soon eaten by the piranhas.

You have to feed them first... Climb up the rocks/ladder at the back and jump via slope to tree branch. Shoot/avoid raptor, then turn around and jump to grab the slope and shimmy right to pull up. Jump via corner block to next

branch. Grab Save Crystal, shoot another raptor, and shoot the dangling dinosaur to drop it into the water. Too busy eating their meal, the piranhas will bother you no more, so you can pull the underwater lever and swim to the other side.

9. MEDIEVAL

In the Asylum Grounds, how do I solve Jack's second riddle?

Go back into the maze and head left, then left above the steps. Grab the Silver Shield from the chest and follow the path round to find five sad masks which you have to turn so their laughing sides face the topiary clown. It's not easy, as hitting one will usually affect another: get them all one turn from happy, then quickly hit the top right, bottom left, top left, bottom right, top middle masks to make the clown laugh.

10. TOMB RAIDER III

Can you tell me how the heck to get past those rolling blades in the Temple Of Puna?

The blades will miss Lara if she stands slightly to the side of any switch. She can thus take her time and flick the two switches on one side, then time a jump over the blades to flick the others.

JUST SAY DOH!

Among the questions we receive every month are some daft ones, usually written in felt-tip pen...

I have been playing *Bugriders* and got onto a level, but can't do it. Can you help me?

Doh! It'd help if you told us which level.

XPLORER APOLOGY

In last issue's Hard Copy, a reader complained that Fire International did not provide adequate warning that their Xplorer cheat cartridge was not compatible with newer PlayStation (sold since July 1999). However, Fire has since informed us that it always advises mail-order customers of this problem, while the Xplorer box also carries a warning sticker.

Also, in our special offer for the Gamers Passport Card, we stated that it was compatible with Xplorer codes. Fire has informed us that such codes will only work on their Xplorer cartridge. We would therefore like to apologise to Fire and our readers for these inaccuracies.

SHAMAN ON YOU

Dear Editor

I purchased my PlayStation approximately three years ago. Up until March 1999 I had only ever bought four games for my console. Then I began buying PlayStation. What a mistake? It provided me with all the best information available for the PlayStation. Cheats galore! Walk-thrus galore! And of course, an up-to-date jam-packed mag of all the best PlayStation games available!

Thanks a lot Sony, thanks a lot PowerStation, for making my life expensive... Since buying your magazine I have purchased six new games since July 1999, all of which are top titles, and have all had stacks of info printed in your mag! Hope you're both please with yourselves?

My thanks go out also to Bullfrog, Namco, and all the other companies who produce these addictive console games. Keep up the excellent work.

PlayStation Shaman (aka D Farrington), Taunton

PS. Call me the 'PlayStation Shaman' because, literally, I am a PlayStation worshipper... I am setting out to convert the beliefs of other console tribes into sharing the beliefs of our own... eventually the whole planet will be PlayStation crazy!

Are you sure you're just PlayStation crazy?

▲ An extract from that nutter's letter!

SHAMAN COMEBACK

To PowerStation

You may recall recently a letter from the 'PlayStation Shaman'. He himself and his followers are now decreasing in size dramatically, due to the fact that they have no memory cards for game saves. Please sort this out ASAP. *Populous: The Beginning* is no fun without one. PlayStation Shaman (aka Mr D Farrington), Taunton

What a terrible shaman.

Have you been on the scrumpy again?

WRESTLE MANIAC

Dear PowerStation

I am a wrestling fan and I think that the wrestling games are getting better for the PlayStation. I recently bought *WWF Attitude* (a brilliant game) and in your magazine you had a whole wrestling guide for moves (issue #39). I also bought a rival magazine (no names), but it had only two pages on the game. Come on, it's probably the best wrestling game on the PlayStation so far.

I think that wrestling games are getting better and magazine (not PowerStation) should pay more interest in the progress of new games. I can understand wrestling isn't everybody's cup of tea, but it's unfair on the wrestling fans and the people who made the game to not let it be heard. PowerStation, you're the best, so keep up the good magazines.

Jody Gibbons, Essex

A wrestling fan... no kidding?

Hope you like our WCW Mayhem guide in this issue, Jody.

GRAND DISC THEFT

Dear PowerStation

I went to my mate's to play the computer and I took my copy of *Grand Theft Auto*.

LETTER OF THE MONTH!

SOFTLY SOFTLY

Dear Hard Copy

I was interested to see Kieran Wild's high scores for *Metal Gear Solid*. I've achieved it in 1 hour 9 mins, but can't prove it and it isn't as good as his time anyway so I'm not bothered.

I wasn't actually playing for time, but maximum stealth, minimum kills. On this front I beat him - found 5 times, kills 19. If Kieran wants to gain the 19 kills score, I rather suspect that he's taking out three soldiers when you blow the gate to start the Jeep run in *Escape Route*. If you're quick enough you can take out only two.

As I say, I haven't any proof of my scores, but I'm glad to see that I'm not alone in trying to play the game in the subtlest manner. If anyone thinks that playing for minimum kills is soft, I'll say this: I can't think of any country where running around trying to wipe out your entire family isn't frowned upon.

Paul Ludgate, London

Actually, we can think of a few.

You big girl's blouse.

We played it for a while, then when I was getting ready to leave, instead of turning it off and taking my game out, I pressed the open button and took it out. But to my surprise, it let him play on and the good thing is it didn't harm the computer.

BA, Battersea

PS. Can I get anything for discovering this? Will a chip round the ear do? But once you complete the level, it would surely need the disc to load the next city.

MORE EFFORT PLEASE

Dear PowerStation

PowerStation is the best PlayStation magazine ever. I buy your magazine every month because most of the time they have a walk-thru guide to most of my games. The problem is the people who write the guide don't write it very well. They are more interested in all the beat-'em-up games. Can you tell them to put some effort into writing their walk-thrus?

Have I sucked up enough now to get an Xplorer cartridge? This is the first letter I've ever wrote [sic] to a magazine.

TOP TIPS

THANKS TO ALL THE READERS WHO SENT IN EXTRA GAME TIPS THEY'VE DISCOVERED...

SUPER HYPER

I have a tip about *Silent Hill*. You know that rubbish Hyper Blaster that you get after you complete the game with the UFO ending? Well, I found a way to power it up. I managed to get it by completing the game with the endings in the following order: Good+, UFO, Good, Bad, Bad+, and then Good+ again. When I saved it after getting the second Good+ ending, under where it shows your game time (in the save/load screen) it said 'Hyper Blaster power up' with a yellow bar through it. Now when you next use that Next Fear file, your Hyper Blaster will be powered up and have a yellow beam instead of a red one. However, it only powers it up to be between the power of the Handgun and the Shotgun. When I completed it again, it didn't power up any more; and worst of all, I lost the power-up that I had! It didn't matter how many more times I completed it, I couldn't get it back, so I just started again from the beginning.

This tip does work as I have managed to get the power-up twice, and I was wondering if you could tell me how to power up the Hyper Blaster more, as I want it to be the best weapon there is in *Silent Hill*. Richard Winfield, email

WRESTLE WITH THIS

Double Hanging Vertical Suplex: Opponent dazed – both players stand in front and repeatedly press ○ together.

Run In Partner: When your energy is on red and your opponent's on green, press and hold L1 + L2 + R1 + R2 + Select.

METAL MIX-UP

Dear PowerStation

I saw a letter in *Hard Copy* and it said that you don't need *Metal Gear Solid* to play the *Special Missions*. Well, I got a press release from Konami and it said that you do need to have *Metal Gear Solid* to play the *Special Missions* add-on disc. Tomás Dunleavy, Co Mayo, Ireland

In fact, someone asked (in issue #39) if you need the original game to play *Metal Gear Solid Integral* – and our answer was correct. MGS Integral is a Japanese-only package comprising the original game, first-person mode, and the special missions. Whereas

Special Missions contains just the special missions – and hence does require the original game to play. I hope that clears up any confusion.

MING OF THE MONTH!

SEAL OF QUALITY

This month's Ming has to be the guy who sent us a 'press release' for his newly created AISP – the Association of Independent Software Publishers – which he claimed was "already working with many of the UKs [sic] leading developers and software publishers, monitoring there [sic] quality control procedures [sic] to ensure their new releases meet the association[s] high standards." Unfortunately, no names were mentioned and none of the publishers we spoke to had ever heard of the AISP.

Full marks for effort though: the letter came with some nice red and gold 'Seal Of Quality' stickers which were apparently going to be stuck on those games passing the AISP's "vigorous quality control procedures" this Christmas. If only his grammar and spelling hadn't been so appalling, we might have taken it seriously. Anyway, if you see some strange geezer in your local software shop, furtively placing red stickers on the game boxes, you'll know who it is!

HIGH SCORES

HIGH-SCORING Heroes

SPONSORED BY JOYTECH, PRODUCERS OF OUTSTANDING PLAYSTATION PERIPHERALS

HOW TO...

1. Get a top score or time on any PlayStation game.
2. Use a camera or video to record your score.
3. Ensure all tapes are in the right position and ready to go. We're not wading through three hours of *The Cosby Show* (A hundred shows, one joke. How do they get away with it?) just to find two lap times. But we will force ourselves to watch episodes of *Millennium*, if you send them in by mistake.
4. Send the photos/video with a piece of paper detailing the scores (and your name and address!) to: High-Scoring Heroes, PowerStation, Paragon House, St Peter's Road, Bournemouth BH1 2JS.
5. Include an SAE (of adequate postage and size!) if you want your photos/video back.

PLAYER OF THE MONTH

For his utter obliteration of the *Driver* scores, this month's steering wheel winner is **Dean Newcombe**. Well done, Dean! We also thought your Roger Moore impression was pretty good.

Achieved an incredible **score** or **time**? Then send us a photo or video (but no memory cards). The **player of the month** wins a Jordan **Racing Wheel**.

NEW SCORES

To help you find the latest entries, all the new scores this month are highlighted in this tasteful beige colour.

THE FORCE OF ONE

Star of *Martial Law*, Kelly Hu, shows us just what a good picture should look like. Make sure your high score photos match this clarity, otherwise we won't print them.

BANDIT OF THE MONTH

Well, there were a great deal of bandits this month, ranging from the bloke who praised the designer and the editor for making such a good mag, in the hope of getting the steering wheel, to Mr 'two seconds a lap on *Ridge Racer* without cheating' Hilton.

Because we get so many people that send us tapes in the wrong place and without all the times written down, we thought Christian Ward should get the bandit award for his three hour tape of shame.

THE ADVENTURE BEGINS

WORLD 1: GLIMMER

CRYSTALS:400 TALISMAN:MAGIC PICK
ORBS:3 ENEMIES:14

Walk up to Pogo, the gem cutter.

Have a few words and he'll tell you about the lizards that are thieving Gems. If you manage to deal with all 14 enemies, he'll give you the first Talisman. Search the area for Gems and be sure to kill all the enemies here before heading into the cave. Speak to Zoe. She'll activate a restart point for you. Enter the cave. Collect the crystals and talk to the fat guy on the bridge. This tight-fisted choffer charges 100 crystals to open the bridge. Pay him off and cross to the other side to get the lizards. Exit the cave via the right passage.

Moneybags
Ah, you must be the dragon everyone is talking about. Well, dragon or not, I'm afraid there is a small fee to open the bridge. It will cost you 100 of your gems to cross.

Spyro
-Hit little lizards with rocks.
-Bouasa will give you hints.

Talk to Pogo and he'll give you the Magic Pick Talisman. Don't go to Summer Forest just yet. Re-enter the passage and turn right. Defeat the final two lizards and collect the extra Gems.

ORB QUEST 1

On the left side of the passage, leading to the portal, is an area with another gem cutter. Speak to him. Collect the Superfly Power-Up. Fly around the area, using your flame breath to light the orbs on the end of the poles. Once they are all lit, return to the gem cutter and collect the first Orb.

ORB QUEST 2

In the same section as the first orb quest, there is a small dark cave. Talk to the gem cutter in the cave. Collect the rock he drops. Use the Δ button to zero in on the small lizard and hit it with the rock. Follow the gem cutter and take out all the small lizards to get an Orb.

ORB QUEST 3

Having gained the climb ability from Autumn Plains, return to the cavern and climb up the ladder. Grab the Superfly Power-Up. Circle the cave and light all of the gem lamps before they go out. When this is done, the gem cutter will hand over another Orb.

TOP TIP

Orbs are the key to completing Spyro's quest. Never pass up the chance to earn them.

▼ Talk to the gem cutter to get yourself an Orb quest.

SPYRO SKILLS

GLIDING

After leaping off a high ledge, press and hold the \times button. This will allow Spyro to swoop around the level. By leaping from ledge to ledge like this, Spyro can glide round and pick up otherwise inaccessible items.

FIERY BREATH

The mainstay of Spyro's arsenal, his fiery breath can be used to dispose of large enemies. It also comes in handy for burning pots. During the adventure, fire will be needed for defrosting Eskimos, lighting boilers, and even clearing forests. It can't be used under water though.

CHARGE

Press and hold the \square button to give Spyro a speed boost. When boosting, his horns become deadly weapons. Use them to batter small opponents and creatures that are invulnerable to fire. They also come in handy for breaking down doors and removing clay pots.

HOVER

Whilst gliding, Spyro can get himself a bit of height by pressing the Δ button. If you don't manage to reach a ledge after a few seconds, he'll drop like a stone. This move is used extensively on the later levels of the game, and on the early levels to reach secrets.

WALK-THRU

ITEM

TALISMANS

Collecting these is Spyro's main quest. Each level, apart from the hub levels, contains one Talisman. To get it you'll have to complete the main quest for each level. They are needed to open the gateway to each end-of-level guardian's chamber.

TOP TIP

Only quit out of a level if you have accessed the exit. If you don't, all your progress there will be lost.

TOP TIP

To restore energy, try destroying sheep, snakes, and other small creatures.

SUMMER FOREST

CRYSTALS:400
ORBS:3

TALISMAN:None
ENEMIES:None

As before, wander round the area collecting the Gems. The Summer Forest has portals that lead to every other level. Talk to Flora to find out more about the Talisman you are carrying. Enter the dome and go out the other side, to reach an area with a number of portals. Moneybags is standing next to the pond in the centre. Pay him 500 Gems to gain the swimming ability. Dive into the pool and swim through the underground doorway to get to the second part of the forest.

This part contains the Summer Speedway bonus area and the portal to the next world. You'll also need to pay Moneybags to open the doorway to Aquaria Towers. Once you have been to the Autumn Plains and bought the climbing ability, you can scale the walls that surround the forest.

ORB QUEST 1

Climb up to the ledge where Hunter is standing. Have a few words and he'll attempt to teach you the art of jumping and manoeuvring. Follow his instructions and leap over the ledges. Complete all the tasks Hunter sets to receive an Orb.

ORB QUEST 2

After getting the climbing ability from Autumn plains, climb up the ladder. Take the Gems on top of the walls and grab the Orb as well.

ORB QUEST 3

After obtaining the swim ability, return to the water near the entrance to Glimmer. At one

end of the stream is a deep pool. Dive into this and follow the passage. At the top of the cliff is an Orb.

ORB QUEST 4

Face the Ocean Speedway entrance and turn 180°. Leap onto the window ledge and face left. Jump over to the opposite ledge and hover onto it. Walk in through the window and collect the fourth Orb.

IDOL SPRINGS

CRYSTALS:400
ORBS:2

TALISMAN:Jade Idol
ENEMIES:11

Have a few words with the green bloke as you step from the portal. Your mission in this world is to destroy all the living idols that are wreaking havoc in the area. Use Spyro's fiery breath to burn the idol guarding the door. Once he's down, the green dude will pop the lock on the temple. Inside are shield-wielding idols.

These bozos are immune to Spyro's breath. Use his ram attack to deal with them. Burn the idol on the bridge. His hostage will open the lock on the opposite door. Pass through it. Enter the next area and defeat the remaining idols to open the following door. Continue until you reach a dead end. Talk to the green guy to get the Jade Idol.

ORB QUEST 1

To the left of the exit portal is an archway. Go through it and climb the platforms that circle the level. There are many Gems to collect up here. Down below is a brown idol in the middle of a circle of green girls. Swoop down and land on the platform. Talk to the girl chained to the wall. Walk over to the Speed Power-Up and hold down the button. As Spyro goes through the Power-Up he'll get a speed boost. Crash through all the pedestals on the path to release the Hula girls. They'll then perform the rain-dance to destroy the boss idol.

ORB QUEST 2

Once you have bought the swimming skill, dive into the pool near the start of Idol Springs. Swim through the underwater passage. Surface and speak to the green bloke. Solve the yellow tile puzzle, then swim back through the underwater pool. Talk to green bloke again. Stand at the edge of the water and blast the fish into the idol's mouth. Don't hit any red fish, otherwise the idol will spit them out. After it has eaten ten fish, move round the map to get to the coloured squares. Have a word with the green guy again. Step on the shapes in this order: Star, Diamond, Orange Crescent, White Crescent, Circle. The Green bloke will then give you an Orb. Be certain to check out all the underwater areas on this level, otherwise you may miss some crystals.

SPYRO 2

WALK-THRU

COLOSSUS

CRYSTALS:400
ORBS:3

TALISMAN:Golden Statue
ENEMIES:13

Speak to the brother and he'll tell you about the Yeti problem. Walk over to the next brother to open the door. Continue through the temple and get the brother to raise the large platform. Ride it to the top of the room and float over the gap. Talk to Zoe and glide down to the platform below. Continue walking. Speak to the brother guarding the Yeti. Collect the Talisman from him.

ORB QUEST 1

From the room where you collected the Talisman, exit through the window. Walk round the ledge and across the ice. Talk

to the brother. Say yes to his offer of a game of hockey. Step onto the ice and collect the puck, by walking up to it. Use the O button to spit the puck into the enemy goal. Once you have scored five goals, the Orb will be awarded.

ORB QUEST 2

Talk to the brother by the ice-hockey pitch again and he'll set you the task of beating the red team in a game of one-on-one. This is much the same as the last game, but there's a red hockey player on the pitch, competing with Spyro for the puck. You can use flame breath to knock this

fool down and steal the puck. Score five goals to win another Orb.

ORB QUEST 3

After activating the Bounce Power-Ups, use them to reach the high buildings. Bounce off the second spring trap to get to the highest building. Speak to the professor inside. You must now hunt down all ten green statues in the area, and flame them, to receive another Orb.

ITEM

ORBS

The Orbs are hidden on all the levels in the game. They are used to power the teleporter that unleashed the evil Ripto upon the realm. By completing sub quests in each of the worlds, you'll be rewarded with Orbs. They also unlock bonus levels when traded in.

ITEM

EXTRA LIFE

Hidden in bottles, the blue butterflies provide Spyro with an extra try. They are usually concealed in hard-to-reach places around the levels. Sometimes by destroying defenceless creatures, such as frogs or sheep, one can be found.

HURRICOS

CRYSTALS:400
ORBS:3

TALISMAN:Gear Of Power
ENEMIES:22

Your mission here is to collect the Diodes and deactivate the forcefields. Move forward and grab the Diode. Crisp the mullah with the spanner, using Spyro's fiery breath. Turn off the first forcefield. Pass through it and clear the area of bad guys. Use Spyro's charge attack to deal with the guard robots. Once you have collect two Diodes, proceed to the bridge and turn off the fields. Do the same in the next area and speak with the boffin to obtain the Talisman.

ORB QUEST 1

To the left of where you entered the level is a grassy verge. Climb this and leap over to the left ledge. Continue walking until you reach a boffin being double-teamed by two purple freaks. Burn the freaks and speak to the boffin. Swallow the small round balls on the ground and place them in the pincers by the side of each generator. Occasionally the purple freaks will turn up to attack. Burn ten of them and they'll stop stealing the balls. Once all the generators have been brought on-line, you'll get your Orb.

ORB QUEST 2

Once the Speed Power-Up is activated, run through it and charge the solid windmills on either wall. Destroying them reveals a set of buttons. Activate these to slow down the fan

blades above. Run through the Power-Up again and head down the blue passage. Turn right and smash the next windmill to uncover the last button. Run through the Power-Up and down the blue passage again: this time steer hard right and take out the windmill on the wall. It'll reveal a set of steps: talk to the boffin at the top and jump across the fan blades to reach a second boffin, who'll then give you an Orb.

ORB QUEST 3

Talk to the second boffin and leap over to the fan blade opposite. Wait until Spyro faces the next fan blade and jump across. Glide across the metal platforms. Float to the grassy area on the right. Cross the moving platforms ahead. Enter the building on the right and activate the switch. Talk to the boffin to recover an Orb.

ITEM

GEMS

Gems come in four values, each with differing values. Red Gems are worth one, blue are worth two, green five, and yellow ten. Gems can be traded for special abilities and secrets. When you have a big stack of spare gems, go and talk to Moneybags. He usually has something he can rip you off for.

TOP TIP

The metal pots that are hidden in each level can only be broken by a supercharged attack. Once you have activated the level Power-Up, use it to break them.

WALK-THRU

SUNNY BEACH

CRYSTALS:400
ORBS:3
TALISMAN: Turtle Medallion
ENEMIES:17

Talk to the turtle king. Move the large turtle with your horns, so that it stands on the blue disc and keeps the gate open. Follow the small turtles and move the large turtle to cover another disc, when they reach a set of doors. Follow the small turtles underwater. Surface and herd the large turtle across the bridge, to open the throne room door. Fromit will then hand over the level Talisman.

ORB QUEST 1

Just before you head underwater to get to the throne room, talk to the turtle on the island. You must destroy all the enemy creatures on this level to activate the Flame Power-Up. Once it is obtained, use the fiery breath to destroy all seven turtle crates.

ORB QUEST 2

Standing next to the second ladder is a turtle. Talk to him to find out about the chef at the top. Climb the ladder and talk to the chef. Walk over to the cauldron and stop the turtles from hopping into the pot. Use Spyro's horns to knock them into the water. Once three turtles have been saved, the chef will hand over an Orb.

ORB QUEST 3

Talk to the chef again. Walk over to the pot. This time you'll have to rescue ten turtles. Knock them into the water, as before. When they have all been saved, collect the Orb from the chef.

BONUS: OCEAN SPEEDWAY

This bonus course is very tough. You must pass through two different sets of eight coloured rings, as well as destroying eight boats and eight cars. This must be done within a tight 30 second time limit. The best way to do this is to first go through the translucent rings, then the solid

ones. When they have both been completed, land on the race course and run in the opposite direction to the cars: this will allow you to destroy them quickly. Once you have beaten the speedway all in one go, talk to the woman in the spectators stand, for a bonus.

AQUARIA TOWERS

CRYSTALS:400
ORBS:3
TALISMAN:Enchanted Shell
ENEMIES:29

Spyro's mission here is to press all three buttons, to refill the tower with water. The first button is straight ahead. Be sure to collect all the treasure before pressing it. Swim through the tunnel to reach the next button. As before, kill all of the enemies and collect the treasure, then push the button. To get to the third button, you must first pay Moneybags for the use of his submarine. Pay him 100 Gems and hit the last button. The seahorse will then give you the Talisman.

ORB QUEST 1

From the portal room, swim upwards to get to the ocean. Talk to the seahorse king. He'll tell you about the babies trapped in the six towers. As the king blows off the doors on the towers, guide Spyro into them to rescue the seahorses. Once all six have been recovered, he'll give you an Orb.

ORB QUEST 2

Return to the area where you met the seahorse king. Talk to Hunter. Take his manta ray for a ride. Guide the ray through all the hoops on the course. Swim back to Hunter and talk to him until he gives you another Orb.

ORB QUEST 3

Talk to Hunter after you have completed the first manta course and he'll set you an even harder challenge. You must race the harder course and pass through all the rings to get the third orb. Swim as fast as you can. Stay near the seahorse that creates the rings and it should be no problem.

CRUSH'S DUNGEON

CRYSTALS:None
ORBS:None
TALISMAN:None
ENEMIES:None

After getting all six Talismans, the gateway to Crush's Dungeon will open. Drop in to face Crush, who will run around the arena stepping on the blue circles. Every time he steps on a circle, he sends out rings of energy towards Spyro. Leap them both and charge towards Crush. Breathe fire on him, then quickly run away. Crush will chase you

with his club, bringing the roof in. This takes a bar of energy off him.

Keep burning Crush with Spyro's breath as he runs from circle to circle. If Crush stands on the red circles, zigzag to avoid the fireball he uses. Once Crush has been crushed, the gateway to World 2 will be opened.

BOSS

Crush is strong but his skin is weak. Use fiery breath to bring him low.

LEARN HOW

TO DEFEAT THE BOSS

[1] Use Spyro's charge move to catch up with Crush. Then hit him with fire.

[2] When Crush is standing on the blue circle, leap the rings he fires.

[3] After successfully hitting Crush, run away from him before the roof caves in.

ORB QUEST 2

When you reach the staircase that leads down to Gulp's Overlook, turn left. You'll notice that the wall is slightly damaged. Charge it with Spyro's horns. Ride the whirlwind up the next to levels, to get to the top of the map. From the highest point, glide down to the small pillar on the outside of the compound, on the right. Climb up the human platform they make. Walk over to Money bags and get him to activate the bridge. Cross it and free the final set of Eskimos. The wizard will then escape.

ORB QUEST 1

Walk back to where Moneybags robbed you at the bridge. Drop into the valley and talk to the wizard. Grab the Superfly Power-Up. Fly through the caverns and burn the spider creatures. You must try to

get them all before your flying power runs out. Go for the spiders hanging from the web threads first, then run along the ground to toast the spiders there.

ORB QUEST 2

Just before you reach the wizard, turn left and take a look behind the buildings. Cross the bone bridge to reach an Eskimo. Talk to him to get another Orb quest. Walk up to the snow leopard next to the pool. Flame the fish that leaps from the pool and wait for the leopard to eat it. Walk to the next two pools and do the same. BREEZE HARBOUR

CRYSTALS:400
ORBS:2
TALISMAN:Glass Anchor
ENEMIES:16

Float across to the pelican. He'll tell you to relight all the fires. Float back to the ledge you started on. Use the charge attack to defeat the two land blubbers. Light the fire using Spyro's breath. This activates a whirlwind on top of the pipe. Ride it to the ledge above. Cross over to the next fire and keep climbing a until you reach another. Light this fire to activate the two boats. Leap onto a boat and ride it across the chasm. Defeat the creatures on the other side. Light the fire and stand on the catapult. Remove the enemies from the boat. Light the fires either side of the engine room. When the boat rises, leap off and talk to the pelican on the high platform.

ORB QUEST 1

Near the boats is a pelican. Talk to him to learn about the mines. Leap onto the silver cannons and manoeuvre them to destroy all eight mines. The first two mines are located to the side of the cannon. There are four in the smelting pit on the other side of the boat

chasm. The final two are by the second fire.

ORB QUEST 2

Behind the catapult is a secret cave. Inside is a Bounce Power-Up. Use this to reach the level above. Talk to the pelican. Leap through the window and onto the trolley. Ride it round the course collecting the cogs. Once you have all 50, the pelican will hand over an Orb.

SKELOS BADLANDS

CRYSTALS:400
ORBS:3
TALISMAN:Ancient Bone
ENEMIES:28

Things hot up in the badlands. There's lava everywhere – keep Spyro clear of it. Two types of bad guy inhabit this level: fire wizards and lava dragons, both of which are immune to Spyro's breath. Use the charge attack to deal with the wizards. The lava dragons are trickier to remove. Lying on the ground are red rocks: get Spyro to pick these up and spit them at the lava dragons. To recover the Talisman on this stage all you have to do is reach the caveman at the end of the level. To do this, run forward and leap the

lava lakes. Make your way to the dragon's-head cave. Pass through it. Leap over the lava island on the other side. Talk to the second caveman you meet.

ORB QUEST 1

Just before you meet the caveman with the Talisman, speak to the bloke standing by some bones. He'll ask you to recover all eight Bones so he can revive his friend. Pick up the first Bone from inside the

SPYRO 2

WALK-THRU

dragon's-head cave: shoot out the window to get it. The second Bone is through the left exit to the cave. Once the level Shield Power-Up has been activated, go back to the cave and charge Spyro's shield. Head through the lava in front of the Power-Up and take out the Troll there for another Bone. Go back outside the cave. Run through the second Shield Power-Up. Pass through it and walk up the lava steps to the left. Run through the cave and into the lava pit at the bottom.

Quickly kill the troll and collect the Bone before the shield runs out. Go back up the steps and cross the sinking bones. Defeat the troll at the end for the fifth Bone. The sixth Bone is on a ledge opposite the skull cave exit. Climb up to the ledge and burn the troll. Whilst standing on the bone ledge, leap onto the square portion of the platform. From there, jump across to the mountain ledge. Cross the platforms round the mountain

and collect the seventh Bone. Return to where you first entered the skull cave. On top of the entrance is a troll. Shoot the troll with a rock and collect the final Bone when it falls.

ORB QUEST 2

Take the left path from the start point. Talk to the caveman. He'll ask you to rescue all of his friends. Move towards the trapped villagers and the eggs will begin to hatch. Use Spyro's flame breath to defeat the lizards, before they eat the villagers.

ORB QUEST 3

After completing Orb quest 2, speak with the caveman. You now need to rescue the villagers from another lizard attack. Use Spyro's charge move to catch up with the second wave of creatures and burn, as before.

FRACTURE HILLS

CRYSTALS:400 TALISMAN:Bronze Flute
ORBS:3 ENEMIES:29

Some nasty earth-shapers have been up to evil things in the hills. They have covered the satyr temple in stone. To uncover it Spyro has to destroy six stone satyrs. The first is located to the left of Lila. The second satyr is on the ledge to the left of the first. Leap the chasm, next to the whirlwind, and glide over to the ledge opposite. Destroy the third satyr. Leap over to the ledge on the left. Charge up to the tree and burn it before bees are unleashed. Destroy the satyr it was guarding. Follow the path to find another tree. Destroy it as before. Nobble the satyr behind the tree. Keep heading forwards. Turn left when you see a blue satyr. Walk up the high ledge and destroy the tree. Crush the last satyr to open the temple. Fly to the temple and recover the Talisman.

ORB QUEST 1

On the far side of the hills in the blue area, there are plenty of earth-shapers. Search for Hunter here. Talk to him, then walk to the far building. Talk to the alchemist. Escort him to Hunter, using Spyro's charge attack to stun the earth-shapers.

Once the alchemist has successfully delivered the potion, Hunter will hand over an Orb.

ORB QUEST 2

After learning the Headbash move from Moneybags, in the Winter Tundra, go back and talk to Hunter. Wait for him to shoot the grey earth-shapers, then leap onto them and perform a Headbash. If they manage to get to their feet before you do so, you'll have to start again from scratch. Once they are all gone, an orb will be handed over.

ORB QUEST 3

Walk up to Spinner the fawn, who is standing next to the locked temple. Talk to her, then turn left and enter the canyon. Pass through the Speed Power-Up and start running. Crash through the first door and follow the blue path. Leap the ledge and turn left in the tunnel. Leap again, jump across the lava, and crash through another door. Jump the next ramp and follow the walkway along. Leap the last gap and crash right through the door to the temple.

ZEPHYR

CRYSTALS:400 TALISMAN:Ancient Bone
ORBS:4 ENEMIES:29

Talk to the blob general. Charge towards the small birds and burn them. Climb up the ledges until you reach a blob firing a cannon. Talk to him, then shoot down the bird he was firing at. Blast the door behind the bird. Leave the cannon and pass through the door. Leap the barrels of dynamite. Run at the large birds and burn them. Continue up the steps to reach another cannon. Use it to blast the door ahead. Run across the bridge and hang a left. Leap the dynamite. Eliminate all the birds, so Spyro can run to the top. Leap on the cannon and use it to obliterate the ammo dump across the walkway. Run over to the ruins and talk to get a Talisman from the blob.

Romeo. Take a run-up and charge at the Cowlecks to knock the beasts across the gap. From there, use fiery breath to herd them into the corral.

ORB QUEST 3

From the valley occupied by the shepherd, take the tunnel to reach another valley. Talk to Private Romeo and head across the valley to find the professor. Collect the first Seed, then walk back into the valley. Go to the left corner and use the Seed to raise a plant next to the ledge containing another Seed. Collect this Seed, then go back to the professor. Use this Seed to create a plant on the green square nearest to him. Return to the first plant you created. Collect the Seed by burning the plant. Return to the second plant and place the Seed on the adjacent green square. Use the plants to reach the third Seed. Plant this next to the first two. Travel over the plants to the high ledge and get another Seed. Fire this at the green square between the two high platforms. Leap onto the ledge with the two chickens. Grab the Seed and fire it at the green square below. Cross over the ledges on the right, to reach the professor and collect an Orb.

ORB QUEST 4

From the professor, collect the first Seed and leap across the middle green square ahead. Use it to reach the tunnel opposite. Walk round the spiral staircase until you reach a ledge facing Juliet. Drop the Seed in a corner. Collect the second Seed and return to where you dropped the first. Fire a Seed at the green square below. Collect the second Seed and fire it at the green square in front of Juliet. Climb across the plants to reach her and get the Orb.

MAGMA CONE

CRYSTALS:400
ORBS:3

TALISMAN:Volcanic Idol
ENEMIES:19

To get the Talisman on this level, Spyro has to plug up the volcano. Move him through the lava level to the cone in the centre. Walk up to the large earth-shapers. Charge at them and try to push the bloaters onto the crosses. Once they are stood on a red cross, the magma demons will give them a good working over. Take out all three shapers and cross the grass bridge. Make your way to the top of the cone. Cross over the bridge and talk to Moneybags. Pay him 200 hundred crystals. Ride the elevator to the bottom floor. Leap up the side of the volcano. Climb as high as you can, then leap left to get to more ladders. Continue doing this and dodging rocks until you reach the top. The volcano will then be capped. A demon will appear and award the Talisman.

ORB QUEST 1

Climb up the side of the central cone. Use the ladders to reach the top. Drop through the centre of the cone. Walk up to Hunter and he'll offer you a challenge: you have to collect ten crystals before he does. The crystals fly to the surface when there is an updraft of steam. Run towards the steam and catch the crystals as they fly out of the fissure.

ORB QUEST 2

After beating Hunter to ten crystals, he challenges you to collect 15. As before, watch for the steam that rises. Don't bother trying to go for the same crystal as Hunter, as he'll shove you out of the way. Use Spyro's charge move to reach the crystals before they vanish.

ORB QUEST 3

Once the volcano has been capped, fly down to the supercharger. Talk to the demon. Collect the Superfly Power-Up. Head through the cavern and eliminate all the flying bandits, then return to the ledge and get the Talisman from the demon.

TALISMAN:Mystic Lamp
ENEMIES:21

Talk to Shorty and ram the tree. Shorty will then grab a berry and bust through the door ahead. Burn the genie and follow Shorty up the ramp. Charge the turbaned blokes to clear a safe path. When Shorty stops, climb the ledge on the left. Leap the gap and burn the bush so he collects another berry. Follow him through the door. Head up the blue steps to the right. Glide over the bush and burn the guard. Knock a berry down, so Shorty can go through the door. Follow the passage until you reach some water. Leap over the water and burn the genie. Return to the water and collect the rock. Fire the rock at the bush on the high ledge. Follow Shorty to the large berry bush. Collect the Talisman.

ORB QUEST 1

After collecting the Talisman, walk to the right of Shorty. Talk to the small hippo. To complete this quest, Spyro will have to catch all three of the wily thieves. The first thief is near the start of the level. Move left, from the start point, and glide down to the island below. Chase the thief across the water, then, when he leaps over to dry land, glide in and cut him off. Use Spyro's flame breath to finish him.

Climb up the steps. Head through the first archway and glide through the

window on the left. As you approach the opposite ledge, hit the Δ button to land on it. Charge towards the thief. When he reaches the metal jar, fake him out left, then quickly turn and burn right.

Start walking back to the level exit. The third thief is in the corridor. As before, you need to chase him round and fake him out. Try to turn tightly around the pillars. Give him some breath and the final lamp will be yours.

ORB QUEST 2

Near the Shield Power-Up is a small hippo. You need to rescue his eight brothers from the deadly lava. To complete this quest, you must first learn the Headbash move from Moneybags at the Winter Tundra stage. Pass through the shield, to protect Spyro from the lava. Then proceed to Headbash all eight of the hippos before they sink.

Follow it to the end and jump across the tower. Activate the button inside, to lower the drawbridge. Cross the bridge. Climb the winding stairs and talk to the girl at the top. She sure is pretty.

ORB QUEST 1

After getting the Talisman from the little girl, talk to her brother in the tower opposite. Collect the Fire Power-up, walk back across the drawbridge, and shoot the bloke on the flag pole. He'll drop down and attempt to bomb you. Run all the way back to the boy without getting hit, to recover the first flag. Repeat this to obtain a further two flags. BONUS: ICY SPEEDWAY

Don't bother going for the snowmobiles at first – they are the hardest targets.

Instead, fly off left and go for the ice skaters and sea serpents, in and around the water. Fly slow and low, hitting them all with your breath. Once the area has been cleared, fly to the rings and start following them around the course. With all the rings collected, fly to the snowmobiles and begin picking them off. You should have just enough time to spare.

BONUS: METRO SPEEDWAY

Spyro starts the course facing the Pigeons. Go for these first. Follow the trail of pigeons until you reach an area with bungee jumpers. Concentrate on clearing the pigeons before taking them on. Circle round and burn the jumpers. Head through the archway on the right, near to where the final pigeon was located. Pass through the two gates in the archway and fly towards the Stop signs. Use a charge attack to knock the metal barrels at Gulp. Swallow the small rockets and spit them at him. Use Spyro's fiery breath to light the fuses on the bombs. If you see any chickens, cook and eat them to restore Spyro's energy. Keep circling Gulp and hit him

Time your jump from the end of the seesaw so you dodge the windmill blades. Head through the windmill and talk to the farmer on the high ledge, to get an Orb.

ORB QUEST 2

Walk back to the farmer you passed earlier. Talk to him. Run over to the scarecrow that's covered in bugs. Use Spyro's breath to destroy them - they'll fly off when Spyro approaches, so you'll have to be fast. Every 20 seconds another bug will appear to replace any that have been destroyed, so you're in for quite a chase.

ORB QUEST THREE

After collecting the first Orb, speak to the inventor again. He'll task you with shooting down the invading saucers. Run through the Superfly Power-Up and take to the skies. Use the fireball to nail the saucers as they hover round the level. Take care to avoid their retaliatory fire. Destroy all three saucers to get the Orb.

ORB QUEST FOUR

With the first wave of saucers downed, more arrive to recommence the invasion. Run through the Power-Up again and prepare for battle. This time, five saucers need to be nailed to get an Orb.

Ripto has three deadly lives
Take away all three to win

RIPTO'S LAIR

TO DEFEAT THE FINAL BOSS

When you face Ripto you only have basic fireballs. Circle him and wait for Orbs to be chucked in. If three Orbs are collected, a weapon supercharge is awarded. Once his first energy bar has been destroyed, Ripto calls on a mechanical Gulp. On collecting a third red Orb, your super fireball will be active. A third blue Orb supercharges your Horns. Get the green Orb which turns into a grenade projectile. After the mechanical Gulp has been written off, Ripto takes to the skies on a metal bird. Just circle Ripto, firing off shots. Ripto will retaliate by firing homing bolts at you. As long as you don't stay still, they won't hit. Once the bird is destroyed, Ripto will fall to his death.

[1] When on the ground, Ripto will attack with his fireball wand. Leap his attacks and collect the Orbs.

[2] Ripto becomes invulnerable when riding the Mechanical Gulp. Stay on the move and wait for the Orbs to drop in.

[3] By shooting at Ripto rather than the bird, you will inflict a great deal more damage.

This is the end
Praise the Lord!

THE END

Ripto ends his days in a lava bath. A fitting end for the purple-cloaked ponce. Yay! The people of the village rejoice, for the valley is once again safe. It doesn't look like Ripto will be back for a sequel.

FIFA 2000

DEFENCE

FREE KICKS

Make sure all three of the opponent's icon players are marked, to prevent him passing/chipping to a team-mate in the clear.

CORNERS

Take control of a defender (preferably not an icon marker) and move him to the middle of the penalty area, ready to pick up any attacker breaking free.

GOALIE RUSH

If an opposing attacker breaks through your defence, hold L1 to bring the keeper out – this gives you a much better chance of preventing a goal than waiting for him to shoot.

PRESSING

To pressure an opposing player in possession, press L2 to bring your defenders up close. This works well for getting the ball back quickly, as one of your CPU-controlled team-mates will probably make a tackle. Watch out, though: you'll probably be leaving an opposing striker unmarked, so you could get stung by a through ball.

OFFSIDE TRAP

If it looks like an opponent is about to play a through ball from midfield, press R2 to make your defenders rush out to try and catch an opposing forward

offside. You have to time it right though – too late and your opponent will be in the clear. Don't bother using this technique when your opponent is nearer goal.

FIFA 2000

GUIDE

ATTACK

GOAL 1: THROUGH BALL

When your passing arrow's green, thread a ball through.

[1] Whilst shielding the ball, the striker draws two defenders out.

[2] Peeling away, he knocks a through-ball to his team-mate, in the clear.

[3] Speed-bursting away from the defence, he slots it past the keeper.

GOAL 2: PASS & TURN

Easy to execute, this is the most common way of scoring.

[1] The midfielder passes it through the gap towards the centre forward.

[2] Collecting it in front of the defender, he speed-bursts to one side.

[3] This creates enough space for a quick shot into the corner.

GOAL 3: CROSS & HEAD

If you can get a good cross in, you'll have a real chance.

[1] Pass it down the wing and speed-burst/spin past the full back.

[2] Cross the ball into the box, but not too near the keeper.

[3] Your striker should then be ready to head it towards the goal.

GOAL 4: ONE-TOUCH PASSING

A more advanced technique, use it to beat tough defences.

[1] The first player passes the ball to an unmarked team-mate.

[2] He immediately passes it back across to another forward.

[3] The striker hits a first-time shot past the defender.

GOAL 5: FREE KICK

Don't bother shooting – pass it to a team-mate to score.

[1] It's virtually impossible to score with a direct shot towards the goal.

[2] So instead, pass the ball to a team-mate who is waiting to the side.

[3] With space, you can knock a quick shot past the keeper.

GOAL 6: CORNER

The trick to scoring is moving to lose your markers.

[1] Press Select to get your players moving around.

[2] Then cross it to the player (△) running to the penalty spot.

[3] Hold O and aim your header into the corner of the box.

GENERAL

RADAR

You can't always rely on the colour-coded passing arrow to be accurate, so we recommend turning the radar display on, so you can see exactly where your team-mates are positioned, particularly if they're offside.

SKILL MOVES

These are a great way of beating defenders, although it's usually easier just to speed-boost past them. The flashiest skill move is the flickover – great for flicking it over the keeper for a really stunning goal!

IN-GAME MANAGEMENT

It's best to set IGM 1 to a balanced mode of play, and the other two tactics to all-out defence and attack respectively. This will give you good scope for changing your strategy depending on the game situation.

ROBBIE!

To see Robbie Williams in action, select the Special Guests side from the Rest Of The World set of teams. Robbie plays in the number 12 shirt, alongside other celebrities such as Mary Mary from Apollo 440.

COMPETITION

Ten FIFA 2000 albums must be won!

You've played the game, now listen to the album! Virgin Records has just released FIFA 2000: The Album, a double CD packed with 39 top tunes. Naturally, there's a couple of tracks from footy fan Robbie Williams, who appears in the game. Of course, there are also a few soccer songs in there, such as *We're On The Ball*, *Herewego Herewego Herewego*, and *Vindaloo*. A nice bonus is the video for Robbie's *It's Only Us*, showing his virtual counterpart in the game. We've got ten copies of this superb album to give away to lucky readers. To be in with a chance, answer this footballing question.

GUIDE

CHOOSE YOUR WEAPON

You start off with a humble Blaster, but there are much more powerful weapons to collect as you progress through the game.

SHOTGUN

First Found: Mission 1, Stage 1
You get this at the start of the first level, and it proves much better than your Blaster. Its wide-spread blasts make it an ideal weapon for using at close range.

CHAINGUN

First Found: Mission 2, Stage 1
This little baby will tear anything in its way to shreds. The only downside is that it uses up Bullets by the bucketload.

HYPERBLASTER

First Found: Mission 2, Stage 5
Its rapid fire will put a Ready Brek glow around enemies to frazzle them in seconds. It's powered by the Cells you collect.

BFG 10K

First Found: Mission 3, Stage 4
Don't ask what the F stands for - just point, pull the trigger and stand well back. It uses 50 Cells per shot, so save it for bosses.

GRENADE LAUNCHER

First Found: Mission 2, Stage 7
This is great for lobbing shots down at enemies below. Just don't use it in a confined space or you might blow yourself up!

RAILGUN

First Found: Mission 3, Stage 2
A handheld version of the big guns found on battleships, it can take out a row of enemies with one shot. Ammo (Slugs) is scarce though.

MACHINE GUN

First Found: Mission 1, Stage 3
The first rapid-fire weapon, this can make mincemeat of the weaker enemies, but uses up those Bullets at an alarming rate.

ROCKET LAUNCHER

First Found: Mission 2, Stage 7
The ultimate in heavy firepower, this is great for blasting enemies from distance. Use it to quickly destroy those tough Tanks.

SUPER SHOTGUN

First Found: Mission 1, Stage 2
This is twice as powerful as the standard Shotgun, but uses two Shells per shot. Use it at close range to instantly turn enemies into paté.

THE ENEMIES WITHIN

Those Strogg swine have a multitude of forces up their alien sleeves. Here's a guide to the main enemies you'll face.

LIGHT GUARD

With their weak laser shots, these only pose a threat in numbers. They should be cannon fodder for you on the early levels.

GUNNER

Equipped with a machine gun and grenade launcher, these guys pose a real threat. Kill them before they get a chance.

MUTANT

There are various types of these cybernetic geezers to be found, including dog-like, flying, and spider - nasty.

SHOTGUN GUARD

These guys are more dangerous than their Light counterparts. Try to kill them before they can fire off a shot at you.

BERSERKER

These guys take some killing, but their only weapon is a pointy hand. Shoot them from the safety of ledges or doorways.

FLYER

These hovering spaceships are armed with lasers and razor-tipped wings. Shoot them down as quickly as possible.

MACHINE GUN GUARD

With a burst of rapid fire, these guards can cause you a bit of damage. Luckily, they're dead easy to kill.

IRON MAIDEN

These tough, cybernetic ladies will whip you at close range or fire rockets from distance - after a telltale scream.

ICARUS

The most dangerous flying foes, these winged wonders will blast you with their twin lasers if you're not careful.

ENFORCER

These green-jacketed guys are equipped with machine guns, but much tougher to kill than the standard guards.

GLADIATOR

With a shoulder-mounted railgun, these cyborgs can do great damage to your health. Don't let them lock onto you.

TANK

These large cyborgs are armed with rockets, machine guns, and deadly lasers. Take cover and keep your distance.

Head back up the ladder and through the right door. Shoot the orange switch above the opposite door to open a side panel, revealing **Secret 4: Adrenaline**. Open the door, ready to shoot two Guards who approach. Go through and down the slope, over the water to claim Armour Shards x3 and Shells on the right. Head up into the passage and shoot the Machine Guard, collecting the Bullets he leaves behind. Equip the Super Shotgun and sneak around the crates, ready to shoot an Enforcer. Shoot a second one, along with Shotgun and Light Guards. Grab the Health in the corner, hitting the red button to open the nearby panel containing the Machine Gun and Bullets.

Snipe the Guard up on the right walkway. Head towards the computer display, shooting a Machine Gun Guard on the right. There's Health x2 on the left if you need it. Head right onto the lift to reach the walkway. Go around to the left for Jacket Armour, shooting another Guard. Continue around the corner, ready to shoot a Guard and Shotgun Guard. Turn around to shoot the Guard who emerges behind you, then enter his alcove for **Secret 1: Quad Damage**.

Continue along the passage, collecting Health on left, to a ledge above the first room. Head round to the left, turning to shoot the Machine Gun Guard on the right. Head over there and onto the narrow girder for Armour Shards x4. Head back to the ledge and collect the Shotgun and Health on the right.

Return to the top of the lift and enter the doorway, shooting a Machine Gun Guard. Grab the Health and enter the next door. Follow the corridor through the next door, ready to shoot a Light Guard in the large chamber. Grab the Health just on the left and snipe the Machine Guard on the right.

Take a run-up and jump from the very end of the broken bridge to reach the far side. Enter the sliding door and follow the passage to a room to shoot a Guard and Enforcer – plus another two enemies through the far window. You need to extend a bridge in this room to proceed here. Return through the sliding doors and head left into the narrow passage. At the end is a door for which you'll need the Blue Key.

Return along the passage and drop into the water by the broken bridge. On the left is a large pipe entrance. Before entering it, head into the left passage. Follow it round and shoot the wall just to the right of the first small archway to find **Secret 2: Super Shotgun and Shells x2**. Head back to the water pool and enter the pipe. Follow it to a room with a Machine Gun Guard and Shotgun Guard. Kill them and collect the Health and Shells. Hit the red button to open the hatch in the floor. Drop down it to enter the next stage.

ROCKET JUMP

Occasionally, there may be a pick-up on a ledge slightly too high for you to jump onto. In this case, you can use a Rocket-jump: aim your Rocket Launcher straight down and press jump and fire simultaneously to be blown high into the air. Obviously it hurts, though.

▼ Dive into the pool near the start of the stage to find the first secret under the stairs: **Quad Damage**.

shoot the two Guards. Collect Shells, Health, Bullets, and Jacket Armour.

Head up the slope and through the door. Open the next door and shoot an Enforcer and Shotgun Guard. Avoid the sludge pool and go through the door, shooting the Shotgun Guard round the corner. Through the next door are two more Guards, including a Machine Gunner, so blast 'em. Enter the room

TOP TIP

If you own a PlayStation mouse, use it: you'll be able to aim much quicker and more accurately than with the joypad.

TOP TIP

By strafing in one direction and turning in the other, you can circle foes while blasting them continually.

TOP TIP

When facing tough enemies, take cover behind walls and pillars, strafing out to shoot at them. This is essential when up against Tanks.

and shoot another Guard on the right. Head left up the stairs (the door requires the Blue Key to unlock it, so come back later) and blast the napping Guard, then snipe the one above. Watch out for an Enforcer on the left as you enter. Collect Shells x2, then ride the right lift up. Blast the Guard just on the left, then grab Health x2.

Enter the door and blast the Guard. Through the next is an Enforcer and a ledge above the sludge pool room. Head right, ready to shoot two more Guards. Grab the Health and enter the next door to a short corridor. Through the next door, be ready to shoot an Enforcer just to the left.

Follow the passage to a window: you can either smash it to enter the room, or proceed along the passage. We recommend the latter: shoot the Dog around the corner, then the napping Guard and his two mates. Collect Health and Shells x2, before proceeding to the door.

Open the door to take pot-shots at the Gunner and Enforcer. Once they're goners, enter and head to the computer console on the far side to reveal the Blue Key-Card on the right. Head back to the ledge above the sludge pool room and take a running jump to the stack with the Jacket Armour on it.

Drop down and go through the door to the short corridor. When the open the next one, there are now Flyers circling above, so shoot them down. Enter the blue door to a short corridor. Through the next door, shoot a Guard on the right. Grab the Shells and shoot the three pesky Machine Gun Guards lurking in the left room. Snipe the Gunner up to the right (watch out for his grenades), then grab the Shells and Health. Take the right lift up and grab Health before entering the door to return to the Installation, which you will now be able to complete.

When they're gone, open the right door and shoot the sitting-duck Berserker. Enter and ride the lift up, turn around and blast the wall to reveal **Secret 1: Jacket Armour**. After collecting it, jump back to the ledge and go to the computer on the left, to deactivate the yellow laser beams. Jump over to the right ledge for the Chaingun and Bullets.

Drop down and head left to enter the lit door, leading to a short corridor. Enter the next door and a blue passageway. Chuck a Grenade to the right to kill the Berserker there. Enter the right room and go up the stairs to shoot the Berserker. Turn around to blast the Berserker on the ledge, then shoot the orange switch behind him to open a narrow passage to your left. Enter it for **Secret 2: Mega Health**.

Go back down the stairs and hit the red button, then head right to collect the Quad Damage. Quickly head right to the long cells room and blast the two Gunners as you head for the far passage. Head round either side, quickly shooting the Gunner, two Enforcers, and Gladiator. Return to the long room and hit the red switches to open all six cells: there's Bullets, Shells, and Health in three of them – the others contain those moaning prisoners whom you can finally shut up!

Return to the room where you just killed the Gunners and Enforcers. Go to the far right corner (opened panel) for Health and hit the red button. Turn left and hit the button by the left door to open it. Go inside and down the slope to find the Power Shield and Cells. Head back up and over to the opposite door to complete the stage.

Open the door to blast the two Enforcers, then enter and grab the Shells and Health in the near corners. Head up the stairs and enter the door. Through the next is another Super Shotgun. Continue down for Health, then snipe into the room to kill the three Gunners – but watch out for their grenades. Enter and shoot down at two more Gunners below – or drop a Grenade on them. Go downstairs and grab the Jacket Armour from under the stairs, and the Bullets from the corners. Going through either doorway at the end, open the door to find the Pyramid – but first you'll need to find the two Keys.

So head back to the room and up the stairs to enter the door. Go through the next and kill the Gunner. Collect the Bullets he leaves, then hit the computer to disable the security lasers. Make your way back to the first room in the level, then turn right to enter the door. Go through the next door and kill the Enforcer, and Berserker round the corner. Grab the Health x2 and Shells x2, then shoot the right wall before the exit passage to reveal Secret 1: a Chaingun. Head through the corridor to the next chamber, turning left to blast the Enforcer there. Enter and turn around to snipe the Enforcer high above. The lift is currently inoperative, so grab Bullets and Health before entering the next door. This leads to the Guardhouse...

Through the door, blast the two Shotgun Guards, then two more above. Open the cells and blast the moaning prisoners, collecting Shells x4 and Health x2. Ride the lift up and collect Bullets x2 and Shells. Follow the passage to the next room and shoot down at the two Machine Gun Guards. Blow open the wall behind them and shoot the Flyers, then collect the Health from the alcove. Follow the narrow ledge round for Grenades. Shoot the corner behind them to open a panel – enter it for **Secret 1: Cells x2**. Continue around the narrow ledge for Armour Shards. Drop down and head downstairs to the door. Through the next, blast the two Machine Gun Guards and Shotgun Guard.

Drop down to the left and blast another Machine Gun Guard, then drop into the water for Quad Damage. Enter the doorway where you shot the Guard, ready to kill a Gunner and his Dog. Blast open the right door and kill the Guard to claim some Health. Return outside and enter the next doorway to kill another Machine Gun Guard and his Dog.

Watch out for the crumbling floor in the middle, which drops you onto spikes. Drop down the ladder in the far right corner to find Jacket armour. Back up the ladder, enter the next door to an empty room. Through the next, shoot two Machine Gun Guards, then a Shotgun Guard and his Dog above. Grab the Cells, then ride the lift up. Follow the corridor, collecting more Cells. Be ready to blast a Dog through the next door.

Grab the Bullets, then head left to shoot the Guard around the corner. Grab the Cells and shoot the Guard who is waiting around the next corner – watch out for the Dog on the right. The door just goes back to the top of the water, so instead head right. Grab Health and shoot the Guards in the room. Grab Cells, Health, and Shells. Shoot the dark crate for Mega Health – grab it and head down the slope.

Follow the rocky passage to the next outdoor area. Blast the Gunner and Guard, then the Tank, taking cover to avoid his shots. Collect Jacket Armour and Bullets x3. Head down the stairs, ready to kill a Guard and Gunner – lob a Grenade down, if you prefer. Follow the passage there to find a stash of Shells, Jacket Armour, and Health. Head back upstairs and up the steps onto the dais to hit the red button to remove the forcefield in the doorway. Head over there and shoot the Machine Gun Guard. Follow the passage and head up the stairs, dispatching two more Shotgun Guards, to claim the Red Pyramid Key. Now make your way back through the level, taking that door to the area above the water – shoot the two Flyers there. Continue back to the start of the level to revisit the Security Complex.

TOP TIP
Ammo is often scarce, so save it by taking out sitting-duck Berserkers with the Blaster from the safety of a ledge or doorway.

Open the cells: the third one contains a weak wall – blast it for **Secret 1: HyperBlaster and Health x2**.

Continue round to the left and ride the lift up, ready to blast a Gunner. Grab Grenades and take the next lift up. Follow the passage round to the next room, where a Tank awaits. Snipe at him from the passage, retreating whenever he stands still to fire. Grab the Security Pass on the left, then exit via the door. Collect Shells x2, Jacket Armour, Cells x2, and Health. Take either lift up to reach a rectangular passage with two 'Tanks' patrolling it. Concentrate on destroying one, then the other, blasting from distance. If they get either side of you, just leg it past one. When they're both dead, a large explosion destroys most of the middle section, revealing a tracked Tank Commander. Take cover

NEW ITEMS: RAILGUN, BODY ARMOUR

Kill the two Gunners and Gladiator. Collect all the goodies from the walkways either side. If you've got ammo for the Grenade Launcher, lob shots down at the two Gladiators below to kill them (easier from here than down below). Head along the left walkway and enter the door (the other is locked).

Through the next door, be ready to battle an Iron Maiden and Gunner. With them dispatched, head down the stairs and turn to shoot the Gunner coming from the opposite passage. Drop down to the floor and turn around to find the glowing green Data CD in the alcove. Immediately watch out for two Iron Maiden up above. Once they're dead, enter their alcove for Grenades and Body Armour. Then blast the Gunner and Gladiator below. Drop down and grab Health and Slugs from the right alcove, then head for the far the passage. Turn left to blast another Gladiator, grabbing the Slugs from his dead body. Enter the door to a short corridor. The next door leads to the floor of the level start, where you grenade the two Gladiators (you did, didn't you?).

Enter the left door, ready to blast a Gunner and Gladiator. Shoot the central pillar behind them to open a panel in it. Collect the Health and Bullets in the corners before entering it. Climb up the ladder for **Secret 1: Body Armour and Railgun**. Open the secret door behind the latter to return to the top of the starting room. Head right to enter the door to a short corridor.

Shoot the Berserker through the next door, and the Iron Maiden on the left.

Snipe up at the Iron Maiden on the high ledge. Now comes the tricky part: you have to get past the alternating laser beams - don't run for it, just time small steps forward just as the beam ahead is about to disappear. There's a couple of Berserkers waiting for you at the other end. Collect the Health on the left, then snipe at the Iron Maiden up on the left ledge. Take the right lift up to the ledge, ready to blast the two Flyers which come through the roof. Head along the walkway, grabbing the Health on the left of the pillar. Continue round to find more Health and Bullets. Hit the button to take the lift down, ready to blast the Gunner at the bottom.

Collect Shells x2 on the right, avoiding the deadly water. Exit via the door and follow the corridor. Through the next door, blast the dozy Berserker and the Gladiator on the far side. Flick the button on the left to deactivate the forcefields. Drop down and exit through the right door (the one by the Gladiator is jammed). The corridor leads back to the room with the secret pillar panel. Exit by the next door, to the bottom of the starting room.

Enter the far door to a corridor. Through the next door you'll find Cells, Slugs, and Grenades x2. Opening the sliding door, be ready to blast a Flyer and Iron Maiden. Collect Bullets x2 by the right pipes, before following the next passage. Shoot the Iron Maiden in the final room, before dropping into the hole.

STAGE 3 TOXIC WASTE DUMP

ORDERS: FIND AND ACTIVATE THE COOLANT PUMPS
ENEMIES: 26
SECRETS: 2

Collect Health x2, Bullets, and Rockets. Enter the next room and blast the Gladiator and Gunner. Jump right over the sludge for the HyperBlaster and Cells x2. Jump back and follow the passage, shooting another Gunner. Kill the two Berserkers round the corner - lure them back to the passage, which they can't enter. Exit the passage again and blast the left grating on the right wall, revealing a Gladiator. Blast him, then enter his alcove for Secret 1: Health and Rockets x2.

Head through the sliding door to a corridor. The next door leads to another sludge room: shoot the Iron Maiden, then another up on the right ledge. Grab Grenades, and Cells and Health from the far corner, then head right to take the lift up. Enter the next door to a corridor. Be ready with the Railgun to blast the Tank through the next door. Shoot the Gunner up on the ledge, then head right on the ground, ready to shoot a Gunner. Snipe up at the Tank on the walkway, then collect Health, Shells, and Bullets.

Return to the previous room and back your way up the stairs - when the secret panel opens below, use your Grenade Launcher to dispose of the two Gunners. Head back down there to collect Health x2, then return up the stairs. Follow the walkway round to a lift - snipe the Gunner above before riding it up. Collect Grenades, Bullets, Cells, and Health before heading down the passage to enter the door.

Follow the passage to another door. On opening it, be ready to kill the Gladiator and Iron Maiden on the other side. Collect Health x2, then cross the bridge. Drop onto the right ledge, then head down the side of the sludge slope. Run through the sludge tunnel (hurting you slightly) to find Secret 2: Body Armour. Run back through the sludge tunnel, then head back up the slope to the ledge. Drop down by the door and retrace your route around the level to the high bridge.

This time, enter the door at the end, to the piston room. Open the next door, turning left to shoot a Gladiator. Follow the passage round the corner to meet another, followed by two Gunners. Kill them all, then proceed to the end of the passage. Turn left and blast the broken bar, then enter the alcove. Collect Health x2, Cells, and Bullets, then hit the red button to blow up the ledge opposite, revealing the passage below. Use the Grenade Launcher to lob a couple of shots into it, luring out two Icaruses. Take cover behind the crates as you shoot them down.

Drop into the passage (it'll hurt) and collect Health and Shells x2. Follow the passage to a room with two Gunners. Dispose of them, then grab Bullets, Shells, and Health before heading upstairs to the exit.

NEW ITEMS: BFG 10K

Through the door is another Railgun, but be ready for the two Gunners and Shotgun Guard who come to investigate, followed by a Gladiator and Shotgun Guard. Round to the right you'll find some Health, but watch out for another Gunner coming down the right stairs. Heading up there, you'll find a couple more. Grab the Cells, then exit through the door.

Take the lift up and turn around to open the door. Blast the two Guards in the large chamber, then grab the Cells, Bullets, and Health. Kill the two Berserkers who come down the slope (you can retreat to the passage to shoot them in safety).

Now go up the slope and shoot the Guard in the far right corner. Now look up at that large cracked pipe – shoot it to blow it open. Jump up the crates, collecting Mega Health, and into the opened pipe. Follow the shallow water passage round to a pool and shoot down two Flyers. Grab Health x2 and ride the lift up. Collect Cells x2, then drop down the right hole, into another water passage. Follow to a pool and shoot down two more Flyers.

Go through the door and into the right passage to kill a Guard and grab Health x2 and Bullets. Return to the ledge for Grenades x2, then drop into the room where you killed the Berserkers. Head up the slope and through the door in the far right corner. Opening the next door, be ready for two Berserkers, Gunner, and Guard. Turning right, you'll also face a Tank and Gunner. Don't use Grenades or Rockets at close range – the explosion will also cause you damage.

Guard above, then collect Health x2. Round to the left, hit the red button, then blast the drum-shaped plinth to blow a hole in the floor. Shoot down through it at the Gunner and Guards below, before dropping in. Shoot the greenish sloping wall there to blow open a secret passage – jump into it to find **Secret 2: Invulnerability**. Quickly exit and follow the passage right to kill the three Gunners at the end. Climb up the ladder and head right around the ledge for Bullets and Shells. (For the Body Armour to the left of the ladder, you'll need to Rocket-jump – or later, head through the tunnel by the sludge pool to the left of the Flyer alcove.)

Drop down and enter the small, dark door. Jump over the sludge and enter the next door. Shoot the Flyers, then grab the Health and climb the ladder. Turn right and make your way around the narrow ledge above the sludge passage to find **Secret 3: Adrenaline and Environment Suit**. Head back along the

sludge passage and back through the door. Return all the way to where you dropped through the hole. Continue to the lift and ride it up to the control room. Collect Shells x2 and the Green Key, then drop back into the pump room.

Exit and make your way back to the previously locked door, which you can now open. Shoot the Berserker through the next door. Proceed round to the left to blast the Guard and collect Armour Shard on the right. Retreat from the deep sludge pool and head right, blasting Guards, Berserker, and Gunner. Collect Health and head down the slope for the Environment Suit – a Flyer will burst from the panel above. Shoot it down, then grab Health x2 and Rocket-jump up onto the ledge to enter its alcove for **Secret 4: Health and Rockets**. Drop back down and head up the slope and right to the deep sludge pool. Cross it (you can dive down for Quad Damage if you really want), then blast the remaining enemies and head upstairs to the exit.

STAGE 6 WASTE DISPOSAL AREA

ORDERS: RETURN TO THE REACTOR

ENEMIES: 7

SECRETS: 1

NEW ITEMS:

Open the door, ready to face a Tank and Berserker. When they're dead, go down and collect Cells, Bullets, and Health. Drop down below for Rockets and Health x2, climbing back up the ladder. (For the Mega Health on the crates, you'll have to Rocket-jump via the single crate.) Head up the slope for Jacket Armour, killing the Berserker by the pillars. On the left you'll find Cells x2, Health, and Environment Suit – quickly dive into the sludge pool on the right, swimming round to the next small pool. Shoot the orange switch above the bars to open them for Secret 1: Railgun. Quickly swim back and climb the ladder to get out. Now hit the red button behind the pillars to create a walkway above the sludge pool. Head over it and through the door.

Through the next door, collect Slugs and shoot the Berserker on the right. Round the next corner, by the Health, you'll encounter a Gladiator and two Guards. Once they're dead, continue to the bridge. Jump to the left rock for Jacket Armour, then back. Collect Slugs and Health before exiting.

STAGE 7 THE REACTOR (2)

ORDERS: RETURN TO THE REACTOR; FIND A WAY INTO THE DEFENCE INSTALLATION

Shoot the Gunner just on the left. Collect Health and Cells, then follow the tunnel to drop down the hole. Shoot the Flyer, then exit through the left door. Head through the next two doors to reach the floor of the large chamber. Continue through the next door and round the pillar, through the next two doors, to the core room. Take the right lift up to find the formerly jammed door is now open. Kill the Gladiator and two Berserkers, then enter the room and collect the Health. Enter the large lift on the left to complete the mission.

WALK-THRU

MISSION 4

STAGE 1 DEFENCE COMMAND

ORDERS: LOCATE AND DESTROY THE
LASER GRID CONTROL COMPUTERS
ENEMIES: 21
SECRETS: 1

Exiting the lift, you'll soon face two Tanks around the large structure. As before, avoid getting surrounded by them – if you do, leg it past one (you could go through the door to fire at them from the passage). Round the back of the large structure you'll find Cells x3, then exit through the door. Follow the winding passage to the next door. Through it you'll find two Gunners. Once they're dead, head through the right door (the other's locked) to a blue corridor.

Through the door, head right for Rockets, Cells, and Health. Deal with the two patrolling Tanks and Machine Gun Guard – take cover in the first passage. Head into the left passage and ride the lift up. Kill the two Gunners, then head left around the ledge to collect Combat Armour and Armour Shards – note the door with the red lasers. Head round to the opposite passage and enter the door.

Through the next door is a large chamber: blast the Gunner, then take cover behind the right computer screens while shooting the Tank. Head through the left door and follow the passage to a room with two Guards. Blast the side walls to destroy the computers – you'll find Cells in the left one. Return along the passage and head right, back the way you came. Round the other side of the ledge, the red lasers have gone, enabling you to enter the door leading to the next stage (you'll return here later).

the left door and kill two Iron Maidens and a Dog Mutant (watch out for his laser). For fun, access the computers by the operating tables to make lasers cut up the bodies. Head through the right door, blasting an Iron Maiden and prisoner in the passage.

Through the next door, turn right to blast a Tank. Round the corner is another Dog Mutant: kill him to collect his Cells. Hit the left computer to disable Level 1 security, then go right for Health x2, Cells, and HyperBlaster. Return through the passage to the previous room, then back into the earlier passage and through the opposite door. Collect Health and open the next door to shoot a Dog Mutant. Round to the left are two ordinary Dogs. Head through the next door, collecting Health, and hit the red button to open the doors. Take the lift (wait till it's raised) down to floor 2.

Through the door, quickly blast another Tank. Collect Health and Shells, then head left to where the moaning prisoners are. Shoot the Dog Mutant who appears, then hit the computer to unlock the maintenance bridge. Return to the passage and through the left door, collecting Health. Follow the passage through another door and shoot the Dog

below, then the one on the right. Approach the edge to make the bridge appear. Head onto it and turn left to jump to the ledge with the red button, to get Level 2 clearance. Jump back and shoot through the opposite bars to the orange switch to open the observation cell. Continue left and jump left to the next button for Level 3 clearance.

Head back along the bridge and right to enter the observation cell for **Secret 2: Quad Damage**. Cross the bridge and grab Health on the left before entering the door. Grab Shells and shoot the Dog in the passage. Collect Health and Slugs, then open the next door, ready to shoot a Tank on the right. Collect Cells and hit the left computer to activate the prisoner disposal tubes. Shoot the two Dogs on the right as you proceed to the next door.

Follow the passage and hit the red button, then take the lift back up to floor 1 and the original passage. Take the right door, then the next right door, and retrace your route to the previous lift, taking it down to floor 2. Follow the passage and open the first door on the right, shooting the Dog. Follow the passage to a lift and take it up, ready to shoot a Dog Mutant. Follow the passage to the repair room and shoot the Dog. Collect the Commander's Head on the left. Now head back via the lifts to the short corridor with three doors. Watch out as you enter the middle one – two Iron Maidens pop up. Continue along the passage to the original room, where a Tank has appeared. Blast him, then exit through the door, back to Defence Command.

STAGE 2 RESEARCH LAB

ORDERS: LOCATE THE REPAIR
FACILITY AND STEAL THE
COMMANDER'S HEAD YOU FIND THERE
ENEMIES: 30
SECRETS: 2

Shoot the prisoner in the first room, then blast the cracked left glass panel. Kill the prisoner inside, and the Dog coming from the left. Head through the small left tunnel to find **Secret 1: Body Armour and Grenades x2**. Blast the prisoner behind the glass, then head back to the first room. Grab Health x2 and hit the computer on the right – be ready for the two Dogs coming through the door. Once they're dead meat, head into the passage to kill an Iron Maiden. Reverse towards the Quad Damage, ready to blast the Dog who appears from the panel – containing Health.

Grab the Quad Damage and proceed around the passage, killing another Iron Maiden. The first door's locked, so enter the second one, collecting Health. Enter

▲ For a laugh, access the computers by the tables to make the lasers cut up the prisoner corpses.

STAGE 3 DEFENCE COMMAND (2)

ORDERS: LOCATE THE ENTRANCE TO
THE GRAVITY BOOSTER AREA

Through the door, proceed around the ledge to the opposite door. Follow the passage to the circular room and enter the opposite door, collecting Quad Damage. Head along the passage to the next door. Kill the Gunners round to either side, collecting Grenades, then use the Grenade Launcher on the two Tanks below. Enter the right passage and ride the lift down to the floor. Collect Cells, Bullets, and Shells before returning up on the lift and exiting through the right door (don't worry about the secret – you'll be back here again later).

QUAKE II

GUIDE

STAGE 4 GRAVITY BOOSTER

ORDERS: ELIMINATE THE GUARDIAN;
USE ITS ANTIMATTER CORE TO
DESTROY THE GRAVITY BOOSTER
ENEMIES: 16
SECRETS: 0

Shoot the Gunner and climb the crates for Combat Armour. There's Health to the left of the entrance if you need it. Through the sliding door, blast the Tank on the right, then take care of the Gunner on the left ledge. Take the lift (to the right of the entrance) up there and grab the Health – at which point the floor explodes. Shoot the Flyers, then drop back down. You can jump into the sludge pool for the Adrenaline if you want, climbing out via the ladder.

Enter the door opposite the entrance (the other's locked). Follow the passage to the next door and enter it. Grab the Slugs and Grenades, then step onto the platform to ride it down the slope. Go through the door and follow the passage.

The next door leads to a large chamber inhabited by the Guardian. A large two-legged robot, it's relatively easy to kill: just keep circling behind it and blasting with the Rocket Launcher. When it croaks, it leave behind the A-M Bomb. Around the room, you'll find Health x5, Rockets x2, and Combat Armour. Enter the passage to the right of the entrance door to find a glowing teleporter – step into it.

Kill the two Gladiators on either side of the large structure, before heading down either slope. Collect the Health on either side, then take a lift up and blast a Gladiator. Up the stairs, grab the Rockets and shoot a Gladiator if he approaches. Once you've placed the bomb in the middle, quickly enter the glowing

teleporter before the core blows.

Shoot the two Gunners, then grab Rockets, Health, and that elusive White Key. Head upstairs to return to the room with the sludge pool. Go through the right door, then exit back to Defence Command.

STAGE 5 DEFENCE COMMAND (3)

ORDERS: LOCATE UNIT EXIT AND
KILL ALL RESISTANCE
NEW ITEMS: AMMO PACK

Head left and take the lift down to the floor. Head left into the passage and through the door. The blue corridor leads back near the start of the level: take the second door to another blue corridor. Through the next door, head left to take the lift up. Turn right into the passage to enter the door. The next one leads back to the circular room – where a Flying Mutant bursts through the floor! Take cover behind the computer screens as you blast it.

Once it's debris, drop into the hole for Shells x2 and Ammo Pack. Exit via the blue panel, back to the room with three doors. Head left and retrace your route back to room with the hole. This time, enter the right door (using the White Key). Follow the corridor to a new room: blast the Guards, collecting Slugs x2, then destroy the Tank (you can dive into the pool for Quad Damage if you dare). Take the stairs up either side for Health x2. Heading toward the exit door, look left to see some cracked glass. Blast it open and dive into the water for **Secret 1: Bullets x2 and Cells x2**. Climb back out and go through the door to find the mission exit – collect Health before leaving.

MISSION 5

STAGE 1 INNER CHAMBER

ORDERS: PURSUE MAKRON THROUGH THE INNER CHAMBER
ENEMIES: 14
SECRETS: 0

Collect Health x2, Rockets x2, and another Rocket Launcher. Destroy the Tanks either side, then head down either staircase. Go up to the door, then stand well back as it's destroyed by lasers. On the other side are two Gladiators – use the Grenade Launcher through the doorway. Once they're dead, enter and collect Health, Combat Armour, Grenades, and Rockets x3 from the alcoves either side. Around the back is another Tank to bust.

Enter the back passage and collect Health x2, then hit the button to take the lift up. Through the door, shoot the Iron Maidens on the other side, then collect Health x2 and Grenades x2. Hit the buttons at the end of each narrow bridge. This removes the forcefield from the tube by the entrance, so you can take its lift up to a large room with Makron at the end. He disappears as you approach. Step onto each of the floor switches in turn, avoiding lasers, then blast the Flyers which appear. This eliminates the lasers guarding the buttons on the far wall. Hit them both, then go up the steps to the teleporter.

STAGE 2 FINAL SHOWDOWN

ORDERS: TERMINATE MAKRON; FIND AND ACTIVATE
SELF-DESTRUCT MECHANISM

ENEMIES: 2
SECRETS: 0

Look behind you for Combat Armour. Head left up the slope for Cells x2. Follow the passage to a wide corridor with Grenades x4 and Shells x4 (and a locked door). Return to the start and head up the other slope for Cells x2. Proceed round to a wide corridor with Bullets x4. Enter the red lift and ride it up. There are lots of goodies around the outside of the large chamber, but watch out – there's also a huge Guardian with a BFG! Obviously, take cover behind the pillars, popping out to blast him with Rockets etc. If you run out of ammo, hit the two blue floor switches and head down the slope for lots of Bullets and Rockets. When the Guardian finally explodes, out pops Makron himself, ready to blast you with his laser, railgun, and BFG. Keep your distance and take cover behind the pillar, as before, blasting him with your best weapons. You'll have to knock him down several times before he croaks it.

When he does, the place starts rumbling. Head down either lift and round to the locked door you saw earlier. Go through it and follow the corridor to another door. Through it, head right through the opening door and hit the computer to activate the self-destruct mechanism. Now head down the stairs to find the awaiting transport craft. Head right to the console to drive it out of there.

GUIDE

TOP TIP

For the multi-hit combos, try to back an opponent into a corner, then hit him up into the air and follow up with rapid punches/kicks (or combos) to keep him aloft (you may need to perform a second upper). However, make sure the enemy has enough energy left to take all your hits. Alternatively, some characters have rapid repetitive attacks, such as Ol Dirty's Scorpion Kicks.

TOP TIP

For Chamber 35, eliminating an enemy without being touched, go to the Airport Hangar level, where the opponents have hardly any energy.

TOP TIP

The two bosses, Lei Gong and Mong Zhu, are both back-off bandits who like to wait for you to attack so they can counter. So do the same to them: back off and/or block, then counter their attacks. Just don't get them get close enough to throw you.

TOP TIP

To get gold Chamber 36, you need to defeat Lei Gong once you have 35 chambers, then defeat Mong Zhu in the opened Inner Sanctum.

TOP TIP

To save fighting Lei Gong twice, make sure you've got 34 chambers before entering the Shaolin Temple. That way, when you defeat him, you'll have 35 chambers and instant entry to the Inner Sanctum.

09 OPERATION: WINTER HAWK

OBJECTIVES: Prevent Ringleader From Escaping, Prevent Scientists From Escaping

LOAD OUT: 3x M16, 3x Baretta, 3x Primary Ammo, 2x Heartbeat Sensor, 1x Flashbangs

PERSONNEL: Hanley, Chavez, Beckenbauer

RAINBOW SIX

GUIDE

WEAPONS

BENELLI

Noise:	7
Accuracy:	3
Recoil:	5
Reload:	6
Ammo:	8

The Benelli is excellent for close-quarter fighting. It drops terrorists with a single shot. Use it during house clearances to eliminate well-dug-in terrorists.

MP5 SHORT

Noise:	5
Accuracy:	4
Recoil:	10
Reload:	10
Ammo:	30

With a shorter barrel, the MP5 delivers a less accurate and more spread-out shot pattern. This is good for engaging multiple targets and filling the air with lead.

M16

Noise:	5
Accuracy:	10
Recoil:	7
Reload:	10
Ammo:	30

This assault rifle is best used in open terrain, where its accuracy can be brought to bear. It has a superior range to the other weapons available, making it an ideal sniper rifle.

C. A. R.

Noise:	4
Accuracy:	10
Recoil:	7
Reload:	10
Ammo:	30

The CAR is a slightly more compact version of the M16, making it a versatile close-quarter and long-range weapon that can easily adapt to most situations.

TACTICS

Stick with the original deployment. Select the man on the far left of the screen. Move him right to get the first two enemy units. Continue moving right towards the airstrip. Pop out and hammer the guards with your MP5. Try to get the two scientists in the crossfire. Even if you don't manage to shoot them, the scientists will run towards your other team members and a quick death. Press on. Regroup with the rest of your squad.

Once there, about-face and head back the way you came. The Ringleader is still hidden in the compound. Move along the chain-link fence to the blue crate. Pop out and scratch the two guards in the hut. Head through the open door. Turn right and enter the room with the window. Shoot the guy inside. Crouch and move to the window. Snipe the two men outside then leap through the window.

Turn right and move to the chain-link fence. Go left and head for the warehouse entrance. Cap the last guard, then enter the warehouse. Kill the Ringleader to finish the mission.

10 OPERATION: RED WOLF

OBJECTIVES: Rescue Dignitaries

LOAD OUT: 3x (Silenced) MP5, 3x (Silenced) Barretta, 3x Flashbangs, 1x Lockpick Kit, 2x Heartbeat Sensor.

PERSONNEL: Haider, Bogart, Hanley

TACTICS

Drop all your people in the lower deployment zone. Head through the door. Turn right at the first doorway and double-tap the guard. Return to the corridor and walk on. Turn left at the end and eliminate the terrorist. Leave this

unit to guard the area and select another man from your squad. Move him down the same corridor, but this time open the door on the left. Lob in a Flashbang and cap the terrorist before he can shoot the woman. Take her outside.

Select the third man in your team. Move him into the corridor and through the doorway on the right. Climb up the staircase and ace the guard at the top. Take the right path through the lockers. Turn right into the passageway at the end. Shoot the man walking down the corridor then open the door to the left. Kill the bloke in the bogs. Resume your journey down the passageway. Move past the first set of brown crates and kill the guard. Proceed further into the storeroom. Walk to the white crates. To the right is the cage containing the prisoners. Lob a Flashbang round the corner and select Sniper mode. Pop out of cover and gun down the terrorists with extreme prejudice before they can respond. Collect the two hostages and leg it back to the entrance. Keep your covert team alert because once the hostages have been freed, all the terrorists will go onto alert. Only by protecting your route out of the mint will all the hostages get out alive.

▲ The HK is the most accurate automatic weapon to use at close range. Employ it during room-to-room combat.

TOP TIP

When using pistols, go for head shots. Standard 9mm rounds won't usually penetrate terrorist body armour.

▼ Crouch next to the corner of the cage and wait for the bad guys to stick their heads out.

WALK-THRU

TOP TIP

Use the Heartbeat Sensor to detect bad guys on the Map screen. This will prevent you from walking into an ambush.

TOP TIP

Use light armour if you want to move around quietly.

TOP TIP

Frag Grenades are pretty useless on most missions due to their small blast radius. Flashbangs are much better. Whilst they don't kill the terrorist, they will prevent him from firing back.

▼ Just in case you manage to get lost, the good doctor is located where the green arrow is pointing.

11 OPERATION: RAZOR ICE

OBJECTIVES: Rescue Dr Winston
LOAD OUT: 3x (Silenced) MP5, 3x (Silenced) Baretta, 2x Frag Grenades, 1x Heartbeat Sensor

PERSONNEL: Chavez, Beckenbauer, Hanley

TACTICS

Deploy all your team in the lower half of the ship. Dr Winston is hidden in the rear cargo hold. Send your point man through the door. Kill all the terrorists above. Turn left and blast the men that come through the door. Enter the door from which they emerged then turn right and go to the end of the corridor. Go left and enter the door on the right-hand side. Move slowly down the stairwell until you reach the lower deck.

Nail the two men in the passageway. Take the left path. Follow it round and open the north door. Continue to the first storage area and kill the man on top of the crate. Move to the left and pass through the door. Activate your image intensifier. Press on to the rear cargo hold and waste the final guard in order to free Dr Winston.

Now comes the hard part. You must get her safely back to your deployment zone. Send one of your backup units, through the same route you took to get to Dr Winston. He should pick off any terrorists that you may have missed. Once you are positive that the route is secure, make double time back to the exit with Winston in tow.

12 OPERATION: BLACK STAR

OBJECTIVES: Download intelligence, Avoid Detection

LOAD OUT: 3x Lockpick Kit, 3x Heartbeat Sensor

PERSONNEL: Chavez, Hanley, Arnavisca

TACTICS

Take the first team member up the staircase and unlock the door. Move him through the door and station him out of sight, next to the archway. Select a second team member and move him up the stairs to join your first man. Move him through the archway and into the room dead ahead. In this room there is a white outlined piece of carpet. Step on it to set off the alarm then quickly enter the lift on the left.

Count off 15 seconds. Select the man by the archway. Move him through the archway and into the passage on the left. Take the next left and sprint into the office. Hide by the corner. Move through the next door, taking care to avoid the

white squares. Take the left turn next to the optical beam. Look up and track the position of the overhead camera. When it is pointing directly forward, go through the door and turn right. Enter the library. Move slowly through the bookcases. Edge round the corner and wait for the camera to point away from the staircase.

Make your way up the stairs. Turn right at the top. Go along the passage and turn left at the doorway. Make sure the camera in the room is pointing away then run and stand under it. When it points away from the opposite door, run through it. Move into the next room and head for the passageway beyond. Run left and open the door. Quickly head for the computer room and shut the door behind you.

Access the computer terminal with the Electronics Kit to retrieve the data. Turn around and go through the door. Proceed right. Enter the room and turn right again. Leap over the balcony and make your way to the exit. Finally, pull your other team member out of the lift and take him back to the start point.

WEAPONS CONTINUED

MP5 SILENCED

Noise:3
Accuracy:6
Recoil:9
Reload:10
Ammo:30

If you need to avoid detection, the silencer fitted on this baby will do it. In long-range fire fights, the built-in flash suppressor will keep the enemy guessing where you're firing from.

MP5

Noise:5
Acceleration:6
Recoil:9
Reload:10
Ammo:30

This is the standard special forces model. The MP5 is accurate at short to medium range, with good shot grouping. Use it for quick surgical strikes.

BARETTA

Noise:5/3 Silenced
Accuracy:6
Recoil:8
Reload:6
Ammo:15

The extended barrel of the Baretta makes it extremely accurate at close range. Its high rate of fire can usually take down an enemy agent in seconds.

HK40

Noise:5/3
Acceleration:6
Recoil:7
Reload:6
Ammo:13

The HK40 has a smaller clip than the Baretta, but greater stopping power. At short range only two bullets are required to put down a terrorist.

RAINBOW SIX

GUIDE

ITEMS

FRAGS

On search-and-destroy missions the best way to remove groups of terrorists is with one of these. Pop it through a doorway and stand well back. The Frag needs to get pretty close to do any damage.

HEARTBEAT SENSOR

This tool is essential for finding the bad guys, particularly in low light or indoor missions. Be careful though: it doesn't distinguish between terrorists and hostages.

LOCKPICK KIT

Sometimes the terrorists will lock doors to prevent access by unauthorised personnel. The Lockpick Kit halves the time taken to open locks, making your units less likely to be ambushed whilst doing so.

DEMOLITIONS KIT

This device halves the time taken to perform bomb disposal. It's useful to have along if all of your demolitions experts are injured, or they're defusing explosives in a heavily patrolled area.

DOOR CHARGES

Door Charges can be used in two ways. Firstly, to blast open locked or impenetrable doors and secondly, to kill terrorists as they walk through the mined door. Take care as the explosion will bring guards running.

FLASHBANGS

On hostage rescue missions Flashbangs are essential. Chuck them into a room with a guarded hostage to stun the occupants for a few seconds. This gives you enough time to cap the bad guy before he can kill the hostage.

13 OPERATION: WILD ARROW

OBJECTIVES: Disable Security, Disable Both Viral Capsules

LOAD OUT: 3x(Silenced)MP5, 3x(Silenced) Baretta, 3x Heartbeat Sensor, 3x Electronics Kit

PERSONNEL: Chavez, Beckenbauer, Dubarry

TACTICS

Move your team leader down the ladder and into the tunnel on the right. Quickly pop his head round the corner to get the guard's attention. There are no alarms to sound on this level so you can

be noisy. Check the map for the position of the guards and kill them all as they approach. Remove all three guards in this area. Move forward and head up the ladder to the left. Follow the walkway to reach the blue door. Pass through it. Move to the door at the top and bring the rest of your team to this position.

Pass through the door and kill the guard outside. Note: the viral bombs will be triggered if a terrorist reaches a blue wall-phone. From the doorway, move left and sweep the outside corridor clear of terrorists. Once the area is secure, move your next man out

of the doorway. Send him right. Take a right turn at the junction and go through the second door on the left. Both Viral Capsules are in this room. Get Beckenbauer and Dubarry to stand next to a bomb each and face down. Move Chavez to the staircase leading up in the top left corner.

From the doorway on the top floor, move fast. Take Chavez forwards and turn left. Turn left again, then right. Run to the next bend and turn left. Go through the first door on the left. Close the door behind you and hack the computer. As soon as the security system is off-line, select one of the other two men and deactivate the capsule he's standing in front of. Once this is done, select the final man and do the same.

TOP TIP

Use the zoom facility to check out objects such as cameras from a distance. This'll tell you which way they are facing.

TOP TIP

Keep your squad together so that they can watch each other's backs.

TOP TIP

Moving too quickly will distort your shot spread. Always walk when engaging the enemy.

14 OPERATION: MYSTIC TIGER

PERSONNEL: Chavez, Arnavisca, Bogart

OBJECTIVES: Capture Brightling

LOAD OUT: 3x Short-Barrelled MP5, 3x HK Pistol, 3x Extra Clip, 2x Heartbeat Sensor, 1x Flashbangs

TACTICS

Keep your team together at all times. Select a point man and get him to clear the area ahead before moving the rest of your team up. Employ your Heartbeat Sensors so that you can detect the enemy early. Use Flashbangs in order to stun groups of opponents before gunning them down.

Go through the door ahead. Turn right and nail the guard. Face forward again and cross the yard. Go right, down the passage. Turn left and kill the two guards in the gallery. Proceed to the blast doors on the lower level.

Open the blast doors. Turn slightly right and cap the man in the office. Head down the right corridor and kill the second guard. Go back left and eliminate bad guy number three.

Continue left until you reach a ramp leading up. Chuck a Flashbang round the next corner then charge round and ace the two guards. Open the blast door at the top.

Quickly turn right and take out the bloke guarding the scientist. Note: the scientists are here against their will - if they die, the mission has failed. Pass through the right door and follow the passage into the next lab. Turn left. Go through the first blast door.

Lob a Flashbang through the second door. Eliminate all three guards whilst they are stunned. Take the left passage. Fire a few shots into the door: this will get the guard on the other side to open it. Drop him when he has done so. Head up the spiral staircase. Open the door at the top. Shoot the two guards. Go through the blast door on the left. Turn right and shoot the man in the office. Pop your head into the corridor to attract the guards. When they approach, cut them down. Continue up the passage. When you reach a ramp, take the left turn. Cut down the few remaining guards and make your way to the dome at the top. Move towards Brightling and capture him.

GUIDE

DOWNTOWN SECTOR

TOP TIP

Whatever you do, don't mess with the cops! They're incredibly good at their jobs in this city and you'll have a tough job of getting rid of them without some bloodshed.

TOP TIP

If you do manage to evade the filth for long enough, things will start getting a little bit tougher. Roadblocks will be erected and the local cops might even call in a SWAT team!

TOP TIP

Get your Wanted rating high enough and it'll get serious - the Feds will be on your ass! They don't hold back and consider the death of civilians as an 'acceptable loss' in capturing you. Gits!

TOP TIP

If after all this you're still loose in the city, the authorities will call on their last resort - the Army! If you think you can handle a full roadblock made up of tanks, be our guest...

▼ If you need any emergency service cars to appear, like Medicars, just blow things up or mow people down!

RESIDENTIAL SECTOR

TOP TIP

If you see the car you're driving start to give off flames, change it for another one quickly. Fire is a sure sign that your motor is going to blow so get away before it finally does!

TOP TIP

If your motor does catch fire and you need to keep it for some reason, visit a workshop and get the car sprayed. This will change the colour and also repair and damage you've done to it.

TOP TIP

Finding yourself a bit low on respect from a certain gang? Use the information phones to find out who their enemies are and then go and waste some of them on behalf of your gang. Your respect rating will be boosted no end!

TOP TIP

Always tool yourself up with as many guns and armour points as you can carry. You don't want to be caught out without ammo in the middle of a fully-fledged gang war now, do you?

▼ If you need to steal a certain car, you'll be led to it. If you're not, you'll have to find one for yourself!

TOP TIP

Try to work out the quickest routes between the various gangland areas. That way, if you need to go in and waste some guys you'll know the fastest way both in and out of the danger zone.

TOP TIP

A bit short of cash? Find the nearest crane and then steal as many cars around it as you can, dropping each one to be crushed and make yourself a tidy packet into the bargain.

TOP TIP

Don't be a total amateur – use a bit of common sense when you're causing havoc. Don't steal cars or run people down in plain sight of the cops or they'll be on to you faster than a rat up a drainpipe!

TOP TIP

If someone comes up to you asking for your wallet, kill them as quickly as you can. Each time they touch or walk through you, you'll lose \$100 and that's something you can't afford!

TOP TIP

Saving might sound like a good idea but don't go doing it at every opportunity. Considering it costs a whopping \$50,000 for one save point, it's not exactly the bargain of the century!

The background of the entire page is a dark, atmospheric image. In the center, a large, pale, and somewhat distorted face with wide, staring eyes and a slightly open mouth is visible. Below this face, a traditional Japanese castle with multiple tiers and dark roofs is silhouetted against a dark sky. In the bottom left corner, a portion of a character in a red and white outfit is visible. In the top right corner, a small inset shows two characters, a man and a woman, in traditional Japanese attire, standing on a wooden platform. The title 'RONIN BLADE' is written in a bold, white, sans-serif font across the top, with 'WALK-THRU' in a smaller, stylized font below it.

KOTARO THE RONIN CHAPTER 1: HOMECOMING

TOP TIP

Hold the guard button, even when attacking. This will increase your chance of getting an instant kill strike.

► Your best friend's dojo is hidden around this corner. Accessing the dojo allows you to practise swordplay.

TOP TIP

It's easier to judge the distance to your enemy if you are fighting from left to right. Always try to manoeuvre to this position.

Kotaro's mission is to reach the dojo at the end of the street. To do this, he must battle his way through the corrupt town guard. Enter the first screen and dispatch the solitary guard with your Triple Cut attack. Move to the next screen and take down the following guard with an Overhand Tsuki. Whilst he

is stunned, cut down his mate who'll be closing in. Collect the Healing Herb on the next screen.

Move forward again. The street splits at this point. You can either opt to take the left path to the dojo, or continue down the street. If you go down the street, there are two more Healing Herbs for you to collect, along with an all-important Save Flower. Once you have saved your game, make for the junction and walk to the dojo.

DOJO

Once inside the dojo, Yukinosuke will tell you about mysterious goings-on in the village. You then get the opportunity to fight him on the practice floor. Use this practice mode to hone your fighting skills and try out combination moves – you'll get precious little chance on the streets.

GUARD CAPTAIN

On returning to the streets, go back to where you started the level. There are two or three town guards en route, but they shouldn't pose much of a problem. When you reach the village outskirts, you'll chance upon a monk being assailed by two Samurai. Keep your guard up and use the Single Cut move in order to chip away at their energy. Once they are defeated, the Guard Captain will appear.

This guy is pretty tough. His energy bar is a third bigger than yours. Use the Overhand Tsuki move to knock him to the floor, then hack away at his back when he gets up. Don't use the Triple Cut on him, otherwise he'll deflect your blows and counterattack. Keep weaving at all times. The Guard Captain has a deadly crescent sword attack, which is unblockable. If you stand in one place, he'll get you with it.

TEMPLE PATHWAY

Once clear of the town, guards will begin to attack. Your new sword will give extra reach, enabling long-range strikes to be successful. Walk along the street to get to the temple steps. There are two monks at the bottom of the steps, armed with staves. These guys will poke you from a distance if you miss them with a sword

strike. Back off and wait for them to attack. Hit them with either a Deflection or a Two Heavens Strike. Their slow attacks are easy to predict and counter. With the monks defeated, head to the top of the steps. There is a woman named Kurenai there. If you escort her through the temple

successfully, her father, the blacksmith, will help you later in the game.

THE TEMPLE

Head up the stairs and defeat the two guardsmen that block the path. Continue to the top. Cut down the next two men. Move forward, to the shrine entrance. Wait for the guards to run down the

steps before engaging them. Move right. Kill the two men by the side of the shrine. Collect the Antidote. Return to the shrine entrance. Keep your guard up as Kotaro ascends the stairs. A Ninja will leap from the shadows. These guys are deadly. They will jump back and forth, throwing shuriken. Ninja also counter your attacks and strike with their Tanto daggers. To defeat them, use Single Cuts so they don't catch you off balance, then follow up with the Spinning Eagle.

Enter the shrine. Collect the Iron Key from the base of the statue. Two Ninja will drop in. Stand in front of Kurenai to protect her from their attacks. Once they are defeated, leave through the right door. Kill the guard outside. Proceed down the steps. Slowly approach the

two Ninja at the bottom of the steps. Use the Spinning Eagle to get them both. Enter the doorway ahead. Recover the second Iron Key from the Guards. Return to the previous screen and then take the left path. Battle through the Ninja until you reach the temple.

POWER MOVES

Every time you kill an enemy, your yellow experience bar will increase. When it reaches full capacity, you'll learn an additional Power Move. Each time you use a Power Move, your magic point bar, top left, will decrease. This bar can be recharged by killing enemies.

Most of the moves below can be used by all of the swords. There are two moves that can only be used by certain weapons.

SPINNING EAGLE (1 MP)

Kotaro will spin around on the spot, holding his Katana at arm's length. This will clear away any bad guys that try to surround him.

PIGEON SONIC (2 MP)

Hold , release when charged.

When the earth power is unleashed, a line of energy will travel from Kotaro and crush everything in its path.

MOONLIGHT CYCLONE (3 MP)

Best saved for single, powerful enemies. The Thousand Cuts does massive damage to anyone standing next to Kotaro.

PHOENIX (3 MP)

Repeatedly press .

This move can only be used when Kotaro is on red energy. Rapidly tap the button and he'll instantly kill his opponents with a single strike.

RAIJIN (2 MP)

This move can only be used when the Sheathed Sword (Muramasa) is equipped. Hold down until the blade is fully charged, then release to kill any enemies at close range.

NITEN STRIKES (3 MP)

Hold , then press rapidly on executing the final strike.

With the two swords equipped, press x4, then press rapidly on executing the final strike. This is more powerful than the Thousand Cuts.

BOSS-MUGA

After hearing Kurenai scream, run to the top of the steps. Pairs of Samurai will block the route. Use the Spinning Eagle to kill them quickly, then proceed to the save point and on to the boss.

Muga is tough. His belly flop attack covers most of the screen, making it very difficult to avoid. If you stand still and try to trade blows

with him, Muga will throw a powerful unblockable punch. Stay on the move and try to circle him. Hold still just long enough for him to begin his belly flop. Then dodge to the side. As he begins to rise, execute a Triple Cut or an Overarm Tsuki to his back. The key to beating Muga is getting behind him. Watch out for his deadly arse attack though.

Muga's wind-up punch is unblockable. Exploit the time it takes to charge and circle round behind him.

The belly flop attack is difficult to avoid. If it misses, Muga is extremely vulnerable as he gets to his feet.

Getting behind Muga and using the Triple Slash is the best way to win. Double tap left or right to get behind him.

WALK-THRU

careful. The best way to collect the Statue is to face away from the ledge and move backwards, towards it. Keep pressing the attack button until you recover the Statue. Then run and jump to safety. Make your way to room 2. Simply walk to the edge of the chasm and collect the second Statue.

Go back across the bridge. Walk all the way to room 3. Place each of the statues in the holes, next to the wall, by selecting the inventory and highlighting them with the Use command. When done correctly, Kotaro will hear a noise in the distance. Walk to the save point just outside the boss room. Be certain to save your game, as this guy is pretty tough.

ESCAPE

Urabe is down, but not out. When the cave begins to collapse, run into it. Keep heading down and Urabe's demonic form will attack. This beast is easy to defeat, if you don't let it attack. Run up to the demon and trap it in the corner. Keep using the Triple Cut until it succumbs to your blows. Check the map and run to the cave exit. Go through the hole that has appeared in the roof.

TOP TIP

Fast swords work better against armed opponents, whilst long swords keep unarmed creatures at bay. Always choose the correct weapon during a fight.

TOP TIP

Killing enemies will recharge your power bar. Always ensure it is full before you take on an end-of-level guardian.

TOP TIP

Use a double D-pad tap to move Kotaro rapidly in any direction. This will enable him to rush-attack, or dodge an enemy strike.

► Powerful attacks often produce spectacular hits. Use them to knock them enemy off their feet.

CHAPTER 3: SOUL BUGS

UNDERGROUND CAVERN

Equip your new sword. It's faster and sharper than the weapon you are currently using. Take the right passage. Keep heading forwards. Eventually you'll encounter a zombie. Multiple knockdowns are required to destroy it.

Even when floored, it'll still try to attack your feet. Take the next left. Then turn right. Go left and cross the rickety

bridge. Head for room 1 on the map. There's a Statue near the edge of the ledge - unfortunately the wind will blow you into the pit, if you aren't

BOSS-URABE

On entering the cavern, kill the three grey zombies. Speak to Urabe, first with your mouth, then with your blade. Urabe has four methods of attack: Energy Bolt, Stone Storm, Fire Well, and Lightning Flash. Stay on the move at all times to avoid these. When Urabe performs an attack, run round behind him and strike with a Single Cut, or Overhand Tsuki. Continue running, after you attack,

otherwise Urabe will unleash more magical energy. Once Urabe is down to the last fifth of his energy bar, he'll start flying around. This makes him very hard to hit. Try standing in the middle of the arena and hacking him when he comes close to the ground. It's very difficult to get the timing right. If Urabe knocks you down to red energy, use the Phoenix attack to finish him.

Defeat the three ancient zombies to face sorcerer Urabe. He relies on powerful magic rather than cold steel.

Move away from Urabe and run around, avoiding his attacks. Staying still is a sure fire way of getting killed.

After an attack, Urabe will pause and recharge his energy. Now's the time to run in and slash him.

CHAPTER 4: THE NEST

ZOMBIE VILLAGE

After appearing in the square, the townsfolk will all flee in panic. A horde of zombies is heading this way and they aren't stopping for anything. Choose your fastest sword and prepare to do battle. Kotaro has to survive for five minutes, before the zombies take a hint and return to the grave. Managing to kill over 250 zombies will cause Musashi to meet you outside the

dojo. If Kotaro manages to dispatch over 300 zombies, he'll be given the Rusty Sword. Take this to Kurenai's father (the blacksmith) on the edge of town. He'll knock the rust off and turn it into a

SWORDS

DENTA

SHARPNESS: DULL

LENGTH: 4'3"

WEIGHT: 460Z

A famous sword, but years of hard use have taken a toll on its edge. Kotaro's initial weapon. Slow and not very powerful. Change it as soon as possible.

MONIHOSHIZAO

SHARPNESS: ORDINARY

LENGTH: 6'

WEIGHT: 710Z

Named 'Laundry Pole' for its remarkable length. Famous as Kojiro Sasaki's sword. After beating the Guard Captain, take this from his warm corpse. It's sharper and has a longer reach than your initial weapon.

OSAFUNE

SHARPNESS: ORDINARY

LENGTH: 4'3"

WEIGHT: 360Z

The renowned sword, Bizen Osaune. With a good balance of reach and heft, this sword is extremely easy to use. Collect it from Muga, at the temple.

RAN-UN

SHARPNESS: GOOD

LENGTH: 5'4"

WEIGHT: 340Z

A jagged sword that is said to beckon storms. It appears to have been made in a foreign land. Kill Urabe to acquire this. The sword discharges electrical power on each successful hit.

DOUJIKIRI

SHARPNESS: GOOD

LENGTH: 5'4"

WEIGHT: 340Z

The sword that is said to have vanquished the legendary monster Shutendouji. Over time, it gained the power of fire. Collect it at the start of Chapter 4. It will burn zombies quickly and easily.

MASAMUNE

SHARPNESS: GOOD

LENGTH: 2'9"

WEIGHT: 260Z

A short sword that is commonly known as 'butcher knife'. Its compact size enables rapid slashes. Collect it from the weapon stand in Yukinosuke's house.

MURAMASA

SHARPNESS: EXCELLENT

LENGTH: 4'1"

WEIGHT: 330Z

Perhaps because of Yukinosuke's lingering despair, this sword could only be used for quick-draw attacks. Collect it from Yukinosuke's corpse after defeating him at the dojo.

HOUHOU

SHARPNESS: GOOD

LENGTH: 5'6"

WEIGHT: 370Z

An ancient Japanese sword. Although its sharpness is merely good, it exudes an oddly evil atmosphere. Take it from the weapons rack in Tohjo's castle. It drains your life slightly, after a successful attack.

KOGARASUMARU & ONIMARU

SHARPNESS: GOOD

LENGTH: 4'3"

WEIGHT: 360Z

Two renowned swords that are specifically intended for use as a pair. It is unknown how they came into Musashi's possession. Face Musashi on the beach, during Chapter 6, to get these.

NIHON

SHARPNESS: EXCELLENT

LENGTH: 5'9"

WEIGHT: 260Z

A magnificent sword that glitters with divine brilliance. Its sharpness is simply outstanding. Defeat 300 zombies in Chapter 4, then take the Rusty Blade to the blacksmith.

marvellous magic sword. Once this is done, run to the tailor's house. Save him from the two attacking zombies. Enter the shop. Kotaro will now be able to change costume here, at any time during the game. Continue down the street to return to the temple. There are tons of Power-Ups waiting there to be picked up. Once you've had your fill, go back to the village square and make for the dojo.

ITEMS

IRON KEYS

Found in the shrine area, they open up the entrance to the main temple.

DOJO KEY

Collect this from the second monster to burst through the wall in Yukinosuke's dojo.

ARCHER STATUE

Found in the caverns, the statue is next to a ledge that sucks Kotaro to his death.

SWORDSMAN STATUE

The swordsman statue is on the opposite ledge to the archer statue, in the caverns.

TOP TIP

When severely wounded, Kotaro will move slowly and stagger about. To counter this, use the double-tap method of movement to increase his speed.

TOP TIP

If enemies are at a higher or lower level, use a jumping attack to get amongst them in style.

TOP TIP

Even if you've no need to search an area, do so. Returning to old areas during the game will unearth secret Power-Ups.

CHAPTER 5: FRIEND

DOJO

On the first street, undead swordsmen block the path. These guys take five good cuts to kill. Use Pigeon Sonic to floor them, then follow it up with a ground attack. Move forwards to find the dojo entrance. Enter the doorway and do battle with the mutated zombie. This guy is tough. He attacks mostly with his sword, but if you continuously guard he'll strike with an unblockable fist. Carve your way through the zombies and search the dojo. Follow the passage round to get back outside. When the zombie bursts through the wall, cut it down. Pass through the hole and enter the garden.

The dojo entrance is on the right, but you'll need a key to get in. Walk south, through the garden. Another zombie will

burst through the wall. Give it a sound beating. Collect the Dojo Key from its twitching, lifeless form. Walk up to the save point. Enter the right door. Grab the sword from the stand. Fend off the two zombies that drop in. Go back to the locked dojo door and use the Dojo Key.

YUKINOSUKE

Whoa! Your friend Yukinosuke has been possessed by the soul bugs! Looks like you'll have to make sushi out of him. A Zen swordsmaster, Yukinosuke is no pushover.

He'll counter every cut you try to make. As bad as you might feel, you're going to have to be a back-off bandit to win this fight. Stand well back, holding block, and wait for him to strike. When he's off balance, hit him with one or two cuts. If you hit him with three cuts, he counterattacks on the third. As his blows do severe damage, it's best not to be too aggressive.

Once Yukinosuke's down to the last fifth of his energy bar, he changes swords. He can't block with the Masamune sword, but his laijustu attack is unblockable. To finish

CHAPTER 6: SHOWDOWN

RAVEN FOREST

After speaking with Hyaku, return to the dojo. There are plenty of items there. Go back to the village shrine. Move to the top right corner of the village and make for the beach. Kill the two spear men in the first screen, by circling to their backs and cutting them down. Don't get too close, otherwise they'll deflect your blade and counterattack. Press on to the next screen and collect the Ointment. Walk round the bend and enter the alleyway. Defeat two further sets of spear men and proceed into the gate on the right. Walk through the next street, grab the Ointment, and

move to the well. Kill the last few zombies, then exit the town via the gate.

Enter the forest. Walk up the steep path and use the Overarm Tsuki to kill the bat creatures. Collect the next set of Ointment. Keep following the trail until you reach a save point. Take the path to the north and collect the Antidote on the next screen. Continue heading upwards and defeat the bat. Enter the following screen to get to another save point. Take the exit to the north. Move past the bamboo construction. Head down the path to reach the beach.

GANRYU BEACH

Continue down the trail and through the dried fish racks. Collect the Ointment. Move through the gap in the boats. Kill the Ninja on the beach. Take the right turn to collect some Antidote. Go back left and grab more Ointment. Press on along the beach, until you reach more hanging fish. Do battle with the blue Ninja. Walk past the fish and on to the main beach, where the ship is wrecked. Collect the Foreign Medicine from the beach. Go back to the hanging fish. If you encountered Musashi (killed over 250 zombies) in Chapter 4, he'll be here, waiting for Kotaro. Take him down. Collect the Katana and Wakasashi.

These are the second-best swords in the game. Return to the village.

THE CASTLE

Take the north route from the village square to reach the castle. Demonic beasts will attack Kotaro. As they surge forwards, circle behind them and hack their legs. Don't stand still for too long, otherwise they'll take a massive bite out of your energy bar. Run to the castle entrance. Keep your back to the wall and wait for the Ninja guards to drop in.

Cut them down at close range. Continue past the next set of Ninja and grab the Ointment. Move to the save point on the following screen. Save your game here, as you're about to face Tohjo's battle-hardened Samurai. Approach the stairs. Rush the Samurai and use the Spinning Eagle to cut them down. Climb the stairs and fend off the next attack. Keep going up until you reach a pagoda. Enter it and defeat the Ninja. Collect a Sword from the weapon rack.

CASTLE INTERIOR

Move into the gold storage area. Defeat the single Ninja guard. Move slowly into the gold pit. Keep your back against the wall. Three Ninja will jump down from the roof. Try to get them all with the Spinning Eagle. Once clear of the chamber, press on and collect the Ointment from the store cupboard. Watch out for the Ninja at your back! Walk right and press on north. Kill the Ninja that jumps from the wall.

ITEMS

HEALING HERB

This grassy substance will restore one third of your energy bar, when consumed.

ANTIDOTE

The red coloured herb will cure Kotaro of any poison or disease-related injuries.

Grab the Ointment from the side of the staircase, then proceed up it.

Move down the corridor to face the undead Samurai. This guy is the equivalent of the tyrant in *Resident Evil 2*. Every time you put him down, he'll come back for more. Take him out with Single Cuts, then proceed further into the corridor. Quickly run round the bend. The undead Samurai will run towards Kotaro and try to cut his back. Stand your ground and slice him in twain. Move further along the corridor. Battle through the zombies to a room with a save point. Steal both items from the shelf. Enter the right door. Back into the corner and destroy three zombies

before they can encircle you. Continue right. Move towards the staircase. Collect the Foreign Medicine from the bottom, then head up the staircase.

LORD TOHJO

After the usual pre-match banter, Tohjo will get it on, using his Naginata. This weapon is virtually unblockable, so your best defence is speed. Stay on your toes and keep sidestepping. When he exposes his back after a strike, attack. Use the Sword Rush to cut him as he moves forward, then step back out of range. Be

sure to keep Kotaro's energy bar at least a third full – if Tohjo manages to strike him, he needs at least that to survive.

Use the two swords from the beach, or the one you got from the castle armoury, to attack Tohjo. After a few hits, Tohjo will begin to heal himself. When this happens, either use the Sword Rush or circle round behind him. Keep up the pressure, otherwise he'll soon return to full strength.

Once Tohjo dies, you don't get an FMV ending. Instead you're prompted to save the game. Do so. Use this save game to begin the adventure again, with Lin.

NEWS

CROFT ORIGINAL

Lara Croft has released an album, entitled 'Female Icon'. Produced by the Eurythmics' Dave Stewart, the CD features 11 tracks, including the single *Getting Naked* - wahey! It also includes some interactive gubbins and pictures for PC and Mac owners (not great), plus exclusive Lara trading cards. Vocals are by ex real-life Lara, Rhona Mitra, who sounds amazingly like Siobhan Fahey from Shakespeare's Sister - Dave Stewart's missus, no less! Hmm... The music is slickly produced, Eighties-style dance-pop (a bit like Republica) with some decent tunes - worth checking out if you like that sort of thing.

POWER PROTECTOR

Occasional power surges in your home electricity supply could be damaging your PlayStation, according to Kingshield. Such surges can crash your game (there goes your high score) or, if powerful enough, even result in damage to your PlayStation's circuitry. Which is why Kingshield has come up with the Surge Protector device, retailing at £16. Fitting between the power cable and your PlayStation, it will absorb any excess electricity, ensuring that your console is completely unaffected.

MEMORY CARD SHOCKER

Fears of a PlayStation memory card shortage have been raised, due to the recent Taiwan earthquake. The quake knocked out half the factories producing IC chips for memory cards. Joytech's Matthew Lamprell commented, "We've worked with our retail partners to ensure that stock will be fulfilled. However, any last-minute panic buyers will find it difficult to fulfil their needs." Better order yours now - see our special offer on page 95!

In this month's **round-up** we pump up the bass with some new speakers, reveal a new **Action Replay** that works on any **PlayStation**, and test-drive the **Top Drive Reactor**.

SOUND STATION SP-300

SUPPLIED BY: LOGIC 3
PRICE: £49.99

There's nothing more likely to ruin a dramatic game atmosphere than tinny sound from your portable TV. So why not upgrade your system with some more powerful speakers? The new Screenbeat Sound Station features a 300 Watt (PMPO) sub-woofer and twin satellite speakers for under 50 quid. It sounds good value, and it sounds good! It's easy enough to connect to your PlayStation (or PC/Dreamcast/Mac - spit!) and pumps out some thumping bass when you turn the bass up. The sound quality's surprisingly good and there's plenty of volume to annoy your parents/neighbours.

★★★★

TOP DRIVE REACTOR

SUPPLIED BY: LOGIC 3
PRICE: £29.99

Now this looks familiar and, no surprise, it's compatible with Namco's innovative JogCon system, offering variable jogging feedback. The only drawback is that so far this feature is only used by Namco's *Ridge Racer Type 4*. Otherwise the Reactor functions as a standard Dual Shock analog (or NeGcon) controller, albeit with two programmable trigger buttons and a mini wheel for steering.

For the latter, there is a switch to adjust the sensitivity to five settings, but we had problems. The highest sensitivity resulted in us sliding all over the track. Upon turning it down, it wasn't responsive enough to slight steering alterations, as the neutral position (ie steering straight) became too wide. This, in turn, led to oversteering and more sliding/spinning. With a bit of practice, we did get used to a more sensitive setting, but at the end of the day we'd still prefer a standard analog pad, or proper wheel.

Logic 3 claims that the Top Drive Reactor provided the best lap times when tested against other PlayStation controllers. Our tests suggested otherwise, but you might want to try it out.

GIZMO

SUPPLIED BY: OPTIDISC
INTERNATIONAL
PRICE: £4.99 (FIVE PACK)

We all know how annoying it is when your favourite game or album starts skipping because of scratches on the CD. Well, British inventor Trevor Burroughs has come up with a unique solution. The CDfender is a polycarbonate film which attaches to the CD and remains in place during play. A cohesive sealant joins the device to the disc, repairing minor scratches as the sealant fills the damaged area.

We tested it out on one of our scratched PlayStation CDs. It was relatively easy to apply the self-adhesive protective film: just place it in a CD case, peel off the top layer, then place the CD onto it, lift it off with the plastic tabs, smooth it over with your thumbs, and slowly peel off the bottom layer.

Unfortunately, it didn't get our dodgy disc to work, although it is only meant to repair minor damage. While it's no miracle cure for badly scratched discs, the CDfender could be a good way to protect your working discs from getting damaged in the first place.

ACTION REPLAY CDX

SUPPLIED BY: DATEL
PRICE: £39.99

Since July 1999, new PlayStations have come without the parallel port at the back - which made it impossible to plug in standard cheat cartridges. However, the boffins at Dattel have finally come up with an ingenious solution. The new Action Replay CDX plugs into the memory card port, making it the only cheat cartridge compatible with all PlayStations.

Preloaded with thousands of codes, you can input the standard Action Replay codes printed in *POWERSTATION* and other magazines, or from Dattel's regularly updated Web site. It also comes with a Comms Link cable, enabling connection to a PC to discover new codes. We'll take a proper look at the CDX next issue.

TOP DRIVE GTO

SUPPLIED BY: LOGIC 3
PRICE: £24.99

Yes, that's right, a steering wheel for under £25. Well okay, the TopDrive GTO is only eight inches in diameter, but packs in plenty of features, including Dual Shock compatibility, twin analog buttons for acceleration and braking, and 'flick shift' style sequential gear selection. Compatible with JogCon and NeGcon games, as well as standard analog mode, it has a full ten-button layout, button relocation function, and variable steering sensitivity. Sounds like a top drive to us - we'll test-drive it next month.

EXTRA TEAMS

On the main menu (Olympic, Friendlies etc), hold $\square + \Delta + \circ$ for a few seconds to hear a sound effect. Check the teams to find the Gremlin All-Stars and Sheffield Steelers.

ACTUA SOCCER 2

Enter the following cheats from the main menu:

Gremlin 11 - $\diamond, \heartsuit, \square, \circ, \heartsuit, \diamond, \square, \circ$

Super Furry Animals - $\diamond, \heartsuit, \square, \circ, \heartsuit, \diamond, \square, \circ$

Ghost Ball - $\square, \square, \diamond, \heartsuit, \square, \diamond, \heartsuit, \square, \circ, \circ$

Beach Ball - $\diamond, \heartsuit, \square, \circ, \heartsuit, \diamond, \square, \circ$

Dwarves - $\circ, \heartsuit, \diamond, \square, \heartsuit, \diamond, \square, \circ$

Giants - $\heartsuit, \diamond, \square, \circ, \heartsuit, \diamond, \square, \circ$

Floodlight Failure - $\diamond, \heartsuit, \square, \circ, \heartsuit, \diamond, \square, \circ$

Invisible Players - $\square, \square, \diamond, \heartsuit, \square, \diamond, \heartsuit, \square, \circ, \circ$

Black & White/Colour TV Modes - $\heartsuit, \diamond, \square, \circ, \heartsuit, \diamond, \square, \circ$

If you have successfully activated a cheat, a string of text will pop up about 75% of the way down the screen for a couple of seconds.

All cheats have to be explicitly switched off. For example, once you have activated the giants cheat, the

players will be giants until you re-enter the cheat. (Active cheats are saved as part of the save game.)

ACTUA SOCCER 3

CHEATS

To enter these cheat codes, select the Editor option from the main menu. Then select a custom team and enter any of the names below as the team name. Exit. You'll now find that team in the AS3 selection.

AIR COMBAT

INFINITE PLANES

If you complete the game on the Normal difficulty setting, when you play again you'll be rewarded with an infinite stash of every aeroplane.

LOADING GAME CHEATS

Just before the game switches to the loading screen, press and hold R1 and \circ . The loading screen will now change to lots of jumping CDs. Whilst in this screen, press any of the following button combinations for the desired effect...

BONUS GAME

Whilst on the jumping CD screen, press $\heartsuit \diamond \heartsuit \diamond$. If this has been done correctly, a small green monster will appear in the bottom left-hand corner of the screen. Now the next time the game loads, you'll be able to play a very strange bonus game. Allegedly, if you complete this bonus game, you can employ wing-men in the actual game for now.

ALTERNATIVE PAINT JOBS

On the jumping CD screen, press $\heartsuit \diamond \heartsuit \diamond$, R1. If the code has

DIFFERENT PAINT IN TWO-PLAYER

You can also alter the colour of your planes in two-player mode (if you're both petty). Input the following code on the jumping CD screen: $\diamond \heartsuit \diamond \heartsuit \square \triangle \square \triangle$.

AIR COMBAT 2

MODEL DISPLAY

By completing the game with a ranking of General, you'll open up this new feature on the options screen. Basically, it allows you to view every single aircraft in the game by bringing up a picture and letting you zoom in and rotate it around. It even tells you if it is an enemy or allied craft - which makes it easier for you to tell if you've found every single flyable plane in the game (there are 24 in total!).

SECRET MISSIONS

Upon accessing the Free Mission mode, if you play through the familiar missions again and complete them all on Easy, Normal and Hard modes, you'll be rewarded by two bonus missions that aren't in the normal game. These two can only be accessed in the Free Mission mode, so enjoy!

MUSIC TEST

Complete the game with a ranking of lieutenant and a Music Player mode will appear on the options screen. All 28 music tracks can now be played: use the shoulder buttons to select the track you want and press the \circ button to play it.

LOCK REPLAY VIEW

Hold down the map button during a replay to freeze the camera in its current position.

ALTERNATE MISSION MAP VIEW

Highlight the Mission option on the mission select screen and press Select. Three new viewing angles can now be chosen.

You can turn off the gauges by pausing the game and pressing $\square + \Delta + \circ + \times$ + Select on controller 1. The options menu will disappear. Press them again and the energy and overdrive gauges go. Press them again to get back to normal or Start to play without them! When you have no gauges selected, you can control the zooming and vertical scrolling with R1, R2, L1 and L2.

BUSHIDO BLADE

SECOND ENDINGS

To see the alternate endings, you must follow these rules strictly:

1. The Bushido Blade 'Code Of Honour' must be obeyed at all times.
2. You must not take any hits until you face the final boss.

Defeat the first opponent without taking a hit, no matter how slight. When you face the second opponent, hold down L1 and run to the well at the construction site. Before jumping into the well, take out your opponent's legs - this way you won't have to face them before jumping to the fifth fight. You then have to defeat the fifth opponent and the following four bosses without receiving a hit.

You'll face one of three hidden bosses: Kindati, Hongou or Black Lotus (in bandages). Defeat them (the no-hit rule doesn't matter any more, then use as many continues as necessary to defeat the final boss and reveal the hidden ending for that character.

OBTAINING KATZE

The ultimate test of your skill can be found in Slash Mode; because at the end of it lies the opportunity to control and select Katze as your character. However, you must kill all 100 opponents WITHOUT getting killed - that means no continues at all. If you die, you must exit Slash Mode, then begin again from opponent number one - argh!

Once you've completed this near-impossible task, you can choose Katze in Vs Mode and Practice Mode. Just move the selection box off the side of the screen next to Red Shadow or Kannuki. If this is done correctly, there will be no cursor or character shown. To select Katze, simply press I.

SECRET CODES
This cheat is dead tricky to activate but worth it. After the game has started and you are at the Game Setup menu, press: L1, X, X, L1, X, □, R1, X, □, R1, ○ (which should take you to the Credits screen). Then hold (for a second or two) ⌘ + △ + □ to activate the secret codes.

Now start the game as normal and, as soon as it starts loading, hold L1 + R1 + ⌘ + △ + X + □ + ○ for as long as it takes for the secret code menu to appear. (Top tip: use a CD case to hold down the four fire buttons.)

1. On the secret code screen, L1 and L2 alter player height up/down. The number is in inches (min = 1.5 feet; max = 12 feet!). Note: Any height greater than 7'10" cannot slam the ball.

To change all the players on the cheat list, you must use a PlayStation Multitap with all controllers plugged in.

2. D-pad ⬅ and ➡ control Chameleon mode (flashing colours).

3. Start and Select on controller 1 set the outdoor court on/off.

To exit the cheat area and go to the game, press △ + X on controller 1.

NEED FOR SPEED: ROAD CHALLENGE

TITAN HOTROD
Enter Hotrod as the username to unlock the Titan Hotrod car in Test Drive, Single Race, Hot Pursuit, and Versus modes. 'Cheat Activated' will appear to confirm correct code entry. Note: Save game is disabled whilst this cheat is activated.

PHANTOM
Enter Flash as the username to unlock the Phantom car in Test Drive, Single Race, Hot Pursuit, and Versus modes. The phrase 'Cheat Activated' will appear to confirm correct code entry. Note: Save game is disabled whilst this cheat is activated.

HELICOPTER

TURN SIGNAL AND HEADLIGHTS
Hold L1 and press ⬅ or ➡ to activate the turn signals (indicators). Hold L1 and press ⬅ to turn on the hazard lights and press ➡ to turn on the headlights.

EXTRA TRACKS
The only method to unlocking all the tracks in the game thus far is by opening them up within the Tournament and Special Events modes. By finishing 1st, 2nd or 3rd in a Tournament or Special Event race, you open up the tracks for other modes, such as Test Drive, Hot Pursuit, single player and two-player match-ups.

EASY CARS AND MONEY
You must own at least one car and have enough money (\$20,000) to buy one. Once you have this, copy the NFS Road Challenge save game file to another memory card. While both memory cards are in the PlayStation, select the High Stakes mode (in the two-player submenu). At the beginning of the race, forfeit player 2. When you reach the in-game menu, you should now have two of the same car. Copy the saved game over player 2's memory card again and repeat. Now sell all the cars you've won.

Note: Temperamental is the best word to describe these last three cheats for NFS Road Challenge. They seem to vary on the car and course selected, so if it doesn't work, try again. If it still doesn't work, chances are it's the wrong combination.

DASHBOARD VIEW
Press Start to load the race after selecting the game options (track and car selection), then immediately hold ⬅ + △ + X before the loading screen appears. Keep the buttons held until you start the race.

DRUNK MODE
Press Start to load the race after selecting the game options (track and car selection), then immediately hold ⬅ + R1 + L2 before the loading screen appears. Keep the buttons held until you start the race. The screen will become blurred, with ten cars appearing instead of one.

SLOW CPU CARS
Select Tournament or Special Events mode. Press Start to load the race after selecting the game options (track and car selection), then immediately hold ⬅ + □ + ○ before the loading screen appears. Keep the buttons held until the loading screen disappears.

PORSCHE CHALLENGE

SNEAKY SHORT CUTS

USA - Drain

After the first left corner, look out for a car park on the right. Occasionally there is a white truck there which means the Drain shortcut is open. When about level with the truck, take a sharp left through the gate in the wire fence - try to avoid the water as it will slow you down. The exit is by the railway station.

Japan - Temple

Hit the first basket on the left side of the course (look closely, there should be an IO logo on it). Just past the starting grid, the Temple Gate shortcut will now be open.

Alpine - Village

On the first lap, the gates are closed. When you reach the base of the track on the second lap, you will see a snowplough. The snowdrift to the left is blocked by some cones: knock these down and the plough will clear the drift, opening the doors for the next lap.

CHEATS

All of these cheats must be entered on the main menu screen (1-Player, Options).

ALL CARS JUMP

Now all the other cars on the track will start jumping.

SUPER STARS

On the 'Press Start' title screen, enter this code:

L1, L2, R1, R2, R2, R1, L2, L1

The Super Stars option will now be unlocked on the main menu. Select it to see the superstar players, including Matt Le Tissier! To add any of these players to the international teams, select Team Tactics from the icons on the main menu, then replace your players with the superstars on the right-hand list.

EXTRA TEAMS

After inputting the Super Stars code on the 'Press Start' title screen, enter this code:

L1, X x2, △, X x2, △, X

On the Select Team screen, you'll now find three extra teams (between Wales and Argentina): Alpha Star, Bravo Star, and Pixelstorm.

Note: You must enter the Super Stars code before this one or it won't work.

PUMA SPORTS GARDEN

On the 'Press Start' title screen, enter this code:

L1 x7, R1

This lets you select the Puma Sports Garden pitch.

RACE RACER

TOGGLE MIRROR ON/OFF

Whilst racing in internal view mode, pause the game at any time and then press and hold △ and then tap L1 to make the rear-view mirror disappear. Press R1 to bring it back.

MIRROR MODE

Providing extra course variety, the Mirror Mode reverses all the tracks so that all the corners and writing are backwards. To access it, select 'Race Start' from the main options and then hold L1, R1, Select and Start until the race begins. If the cheat has worked you will instantly notice the difference.

ADVANCED COLOUR PALETTES

To access more colours to use on your team logo, perform the following: Select 'Customise' from the main options, then select 'Design' and choose any logo or create your own. Then select 'Paint' and then press any direction until the cursor is off of the painting area.

Now press a button to move onto the colour palette and then press L1, L2, R1, R2 and Select. If done correctly,

additional boxes will appear on the right labelled R, G, and B. These letters represent the amount of red, green and blue hue for the specific palette that the cursor is highlighting. Pressing ⬆ and ⬆ will change which hue you alter and then pressing R1 + ⬆ or ⬆ will alter the numeric figure in the hue box.

Now move the cursor onto the painting area and press L1, L2, R1, R2, and Select. You should now see a targeting cross-hair appear in the smaller picture area (for greater accuracy we presume). Finally, keeping the cursor inside the painting area, press L1 + R1 in

conjunction with any direction to rotate your design around.

INFINITE MONEY

Follow the steps below for infinite money:

1. You must complete the Normal GP (all the classes). Wait for the credits roll until the end.
2. Save the whole game into a brand new block in Save/Load screen.
3. Go back to play the Normal GP at class 5 and you should be able to choose only one car (GNADE).
4. Choose that car and press Race Start.
5. During the countdown (3, 2, 1, Go), press Start and choose Retire. This should let you quit the race without losing a chance.
6. Finally, enter the Normal GP again, then choose Class 1. You should now have infinite money. You can buy and upgrade any car you wish.

Note: If you repeat all the steps at Extra GP, you'll get the same cheat.

RALLY CROSS

SPECIAL PASSWORDS

To be entered as either the Lap/Course Record name or New Season name.

Win Rookie Season -

vet_me [= space]

This is equivalent to winning the Rookie season, giving you four extra cars and access to the Alpine track.

Win Veteran Season - im_a_pro

Equivalent to winning the Veteran season, this gives you four more cars and the Gardens and Stadium tracks.

Win All Pro Seasons - weeco

This is equivalent to winning the normal, head-on, and mixed Pro seasons. You can now select the three pick-up trucks.

Heavy Cars - stone

Makes the cars stick to the road more, hardly jumping into the air.

Lighter Cars - feather

Makes the cars lighter so they bounce around more.

Low Gravity - float

Upon bouncing up, the cars float through the air longer. This completely confuses the CPU opponents.

Sharp Turning - spinner

Lets you turn quicker thanks to more sensitive steering. Keep turning to spin right round on the spot.

Fat Tyres - fat_tires

Increases the width of your tyres, although this doesn't seem to alter their grip.

No Wheels - no_wheels

Removes the wheels, so the cars float around the track!

Just Wheels - wheels

Removes the car body, so just the four wheels remain!

No Collisions - banzai

Lets you drive straight through other cars as if they weren't there.

No Slowdown - noviscous

You can now keep accelerating through mud/water etc without slowing down.

Normal Gravity - radbrad

This cheat seems to be pretty useless; unless you've just activated the float cheat. All this does is return gravity to normal.

RESIDENT EVIL

ROCKET LAUNCHER
To start the game with the rocket
launcher plus infinite ammo, you must
first complete the game in under three
hours. Simple. When, or rather, if you
achieve this, you'll be able to save the
rocket launcher to your inventory and
start the game more or less invincible.
CHANGING CLOTHES
It's true, by completing *Resident Evil*
with a good ending (whereby
you rescue BOTH team members), you
will be awarded the Special Key which
will be added to your inventory and
saved in preparation for the next game.
This key will then allow you to enter the
previously locked door in the wardrobe
and enter the hidden wardrobe closet.
In here you'll be able to access an
alternative set of togs for your chosen
character.
Pointless but fun.
SUN CREST
Go to the Armour room on the second
floor and then push the two statues
over the air vents in the floor. Now
press the button on the ground and the
display cabinet at the far end will open,
revealing the crest.
WIND CREST
Push the statue off of the balcony on
the 2F Dining Room and collect the Blue
Gem from the shattered remains below.
Take this gem to the Tiger Statue Room
on the first floor and insert it into the
statue's eye socket. This will cause the
statue to pivot, revealing the crest.
STAR CREST
Go to the Large Gallery on the first floor
and you'll be confronted by a series of
paintings. Visit each painting in
sequence starting from the youngest to
oldest and press the buttons. The
correct sequence is as follows: New-
born, Infant, Lively Boy, Young Man,
Middle-aged Man and Old Man. Finally,
once you've pressed each button, go to
the painting at the end and press the
final button to obtain the crest.
MOON CREST
This is by far the hardest crest to obtain
and it is found in the Attic. When you

get there, you'll be confronted by an
extremely large snake. You can either
take evasive action and run around it to
grab the crest from its nesting ground,
or alternatively you can blast it to
kingdom come and then grab the crest.
DOOM BOOKS & MEDALS
Take the Doom Books to the fountain
which you'll come to after the
underground passage, then go to your
inventory, go to 'Check Item' and rotate
each book around so that the pages are
facing outwards. Now press X and the
book will open, revealing the medals
needed to drain the fountain and access
the lab.

LOGGING ONTO THE COMPUTER
The login name is JOHN. The first
password is ADA. The final password is
MOLE.

DISKS & TERMINALS

Disk 1 - Inside the hidden room in
Library B.
Disk 2 - Behind the huge rock in Crank
Passage.
Disk 3 - On the desk at the Stairs in
the laboratory.
Terminal 1 - Inside Private Room A.
Terminal 2 - Inside the Mortuary.
Terminal 3 - Inside Power Maze B
POWERING THE ELEVATOR
To activate the power to the elevator
that will take you down to the final
battle with Tyrant, you'll need to visit the
power panel in the first room of the
Power Maze. Simply go to the
southwest corner of the room and
restore the power to the darkened
areas. Go into the last room of the
Power Maze and then use the terminal
at the east end of the room - the
elevator will now be active.

RESIDENT EVIL 2

RANKINGS
After beating each scenario your
performance will be rated by a
grade from A to F. This is
determined by both the time taken
and the number of saves used.
For a top ranking, try not to save more
than ten times in each scenario.
Your ranking is also affected by the
use of the special infinite ammo
weapons (see 'Cheats') - you won't
get an A grade if using one.
CHEATS
Alternate Uniforms:
Start the first scenario on the
'Normal' difficulty setting. Head for
the police station, but without
picking up any items. If you do this,
the two zombies in the park outside
the station will vanish, and a new
one will appear below the steps
outside. Does he look familiar? He
should because the new zombie
is none other than Brad Vickers, the
STARS pilot who airlifted Chris and
Kill to safety at the end of the first
game.
Brad has now been transformed
into a super-zombie who takes 20
hits to kill - so enter the station to
grab some more ammo. Return and
kill 'Brad', then search his body to
find the Special Key. Take it to the
save room next to the Dark Room
and use it to open the locker
containing alternate uniforms.
There's a cowgirl one for Claire,
featuring a rapid-firing six-shooter;
and two for Leon, one of which
enables him to shoot one-handed.
INFINITE AMMO WEAPONS
Each infinite ammo weapon will
appear in the next game after the
first chest is opened, and is
accessed by completing scenarios
(on Normal difficulty) within time
limits in the following order:
Rocket Launcher: Complete either
Claire or Leon's first scenario in
under 2.5 hours with an A or B
ranking.

Gatling Gun: Complete either
character's mission B in under 2.5
hours, with no saves, no first-aid
sprays, and an A or B ranking.
Machine Gun: Complete either
character's second scenario in
under 3 hours with an A or B
ranking.

All Three Weapons: Complete
either character's second scenario
in under 2.5 hours with an A or B
ranking.

Rebecca Chamber Picture
If you search the desk on the left
side of the STARS office, you'll be
told, "It's trashed, someone must
have searched it." However, you can
search it repeatedly (about 50
times) until a roll of film is found.
Now take this to the Dark Room to
see a picture of Rebecca in a
basketball uniform.

PLAY AS HUNK & TOFU

1. You need 8 free blocks on your
memory card.
2. You need to play the game four
times, one for each character's two
scenarios, in less than 3 hours with
an A or B ranking; ie don't save
more than three times (and don't
use any first-aid sprays if you want
an A ranking). NO special weapons
may be used at this point (but you
can later).
3. Save each game separately on
the memory card - don't overwrite.
Play CLAIRE A as above. This will
save as LEON B. Save on Memory
position 1 on memory card.
Play LEON A. This will save as
CLAIRE B. Save on Memory position
2.
Play LEON B, loading from Memory
position 1. This will save as CLAIRE
A. Save it on Memory position 3.
Play CLAIRE B, loading from
Memory position 2. This will save as
LEON A. Save the game on Memory
position 4.
4. Now, along the way, you will have
been awarded the HUNK save file.
Save this on Memory position 5.
5. Now you have to play two more
scenarios to finally obtain Tofu. For
these two scenarios you CAN use
any infinite special weapons that
you've earned along the way, but you
need an A or B ranking as before,
with a time of less than 2.5 hours
using no first-aid sprays and NO
SAVES.
6. For these final two scenarios do
it as follows:
Play LEON A, loading it from
Memory position 4. This will save as
CLAIRE B. Save this game on
Memory position 6.
Play CLAIRE B, loading it from
Memory position 6 as above. This
will save as LEON A. Save this game
on Memory position 7.
7. As soon as this is saved, you'll be
given the TOFU save file. Save this
file on Memory position 8. Phew!

scoring a 'Perfect' by blasting every
single alien in the Galaga game.

MIRROR MODE

Start a race and drive up to the end

rotation of the cars and tracks on
their respective select screen by

DEVIL CAR

When you place first on all three
standard tracks, go to the Time Trial
mode and you'll be racing against two
other cars as opposed to just one.
The third is the 13th Racing Devil
Car. To beat it, you must overtake it
whilst it is stationary on the second
lap and then maintain a perfect
racing line throughout the remaining
duration of the race. Achieve this and
the Devil Car will appear to the left of
the first car on the select screen.

RIDGE RACER REVOLUTION

EXTRA CARS

You can boost the car quota up to a
staggering 12 motors by getting a
perfect result in the Galaga loading
game, shooting all 40 enemy craft.

SECRET OPTIONS

Don't shoot any of the ships in
Galaga '88. After all the ships have
gone by, there will be a small
firework burst. Go to the 'Other'
screen and you can now set the
racing time from Normal, Morning,
Evening and Night.

SPOTLIGHT CONTROL

Hold down L1 and R1 at the main
screen (with Game Start and Options
commands).

BUGGY MODE

To turn all the cars into small buggy-
type vehicles, complete the Galaga
loading game scoring a 100% hit
ratio. To make this much easier,
when you switch on your PlayStation
on, press and hold L1 + R1 + Select
+ \triangle + \square . Now when you play Galaga,
your ship will fire a laser beam that
can wipe out enemies with ease.
Start the game as normal and you'll
have all the cars at your disposal, all
squashed!

TOGGLE MIRROR ON/OFF

Getting fed up of having a rear-view
mirror on the screen? Well just
pause the game by pressing Start,
hold down \triangle and press L1 to make
the mirror vanish. You can press R1
to make it reappear again too!
ZOOM CAR IN/OUT
Drive using the external view mode
and pause the game. Now hold down
 \triangle and press L1 and R1 to zoom in
and out on your motor.

Spinning Mode

Select a Time Trial race and when
the Start command is highlighted,
press and hold the accelerator and
brake until the action switches to the
track. You begin the race as normal,
but will see the message 'Spinning
Point' appear as you reach the first
bend. Take your finger off the
accelerator and quickly press it again
to send your car into a spin.

You can perform 360's, 540's and
even 720's with a bit of practice. You'll
get marked on technique and there are
three spinning points in each track!

MIRROR MODE

You can play the tracks backwards
with corners bending the opposite way
and the writing reversed by following
these simple instructions...

Start the game as normal, drive a
little way down the track and turn the
car around. You will see a barrier ahead

the biggest database of tips, cheats and codes in any magazine

meant to stop you racing the wrong way. Line your car up and attack it!
If you hit the barrier at 100kph you will go straight through and be able to race the track backwards!

SOUL BLADE

PLAY AS SOUL EDGE

Method 1 - Simply complete the game with every character. Do this and the title screen will change from the plain blue design into a montage of all the characters. Now go to the character select screen and a new skull face representing Soul Edge will have appeared.

Method 2 - We couldn't actually be bothered to try this one, but apparently if you play the game for 20 hours without switching the machine off, Soul Edge will appear in much the same way.

PLAY AS SOPHITIA!

Simply complete the Edge Master Mode with Sophitia, get the eighth weapon and then the next time you return to arcade mode, she'll be there.

PLAY AS SIEGFRIED!

Complete the Edge Master Mode with Siegfried and obtain his eighth weapon. The next time you enter the arcade mode, Siegfried will appear.

PLAY AS SOPHITIA!!

You basically have to complete Edge Master Mode, getting all 80 weapons.

PLAY AS HAN MYONG

First, Soul Edge must be available as a playable character - either by completing the game in Arcade mode with all ten fighters, or by racking up 20 hours playing time. Once he is, you need to complete Arcade mode with Hwang, then Seung Mina. Han Myong should now be unlocked. (You don't have to bother with alternate endings. You can also use continues and any game settings.)

CHANGING VOICE (JAP VERSION ONLY)

When the main title screen is displayed and you hear a gruff voice say "Soul Edge", it is possible to change the voice by holding L1 and L2 and pushing a direction on the joystick. Here are some examples:

L1 + L2 + Δ - A husky voice will say "Soul Edge" very slowly.

L1 + L2 + \diamond (or \triangle) - Seung Mi Na will say "Soul Edge" very quickly.

SNAZZY OUTFITS

Costume #1 - \square

Costume #2 - \square + \square

Costume #3 - \circ

Costume #4 - \triangle

Costume #5 - \times + \triangle

ALTERNATE ENDINGS

All the commands must be entered when the screen returns to its full size during the end sequence.

Volto: To get him to break Soul Edge repeatedly press \diamond , \triangle whilst he is rubbing the sword on his cheek.

Mitsurugi: When facing Tanegashima the rifle man, step off line by pressing \diamond or \triangle , then run forwards and use a \square slash to kill him before he reloads.

Rock: When Rock's flash back has finished and he is standing in front of Soul Edge, press \triangle and he will return to America to be with Bangoo.

Taki: Pressing \times when Soul Edge flies towards her will allow Taki to capture the blades for her own use.

Sophitia: As Sophitia walks off through the woods, press \diamond to make her walk to pool so you can see her wash.

Siegfried: Whilst he is standing in front of Soul Edge, press \triangle to get him to destroy the blade and return home to begin his penance.

Li Long: When Long falls to his knees, tapping \square and \triangle rapidly will get him the strength to stand so that he can return to his wife.

Seung Mina: As her father raises his sword, press \diamond , then \triangle to dodge the blow. Mina will then do a runner from the family home on her wedding night.

Hwang: Press \square when Hwang reaches for Soul Edge and when he returns to Korea he will get a hero's welcome.

Cervantes: By pressing \triangle when the final battle is over, Cervantes will take his own life to prevent the evil spreading.

FINAL WEAPON

When you complete Edge Master mode with a character, you won't get the last weapon in their collection - you will have to search the map for it. When the end text has finished, go back to the map screen and select 'move' from the

options and you'll move to where your final weapon is located. If you fail to complete the challenge on this location, the weapon will move again: keep choosing 'move' from the options until you complete a challenge first time and the final weapon will be yours.

CHANGE THE CAMERA VIEW

To do this, you'll need a Sony Multitap and a second controller. Plug the Multitap into any port on the PlayStation, and then plug the second controller into port two of the Multitap. Now battle away using the first controller, and then at any time during the fights, press R1 or R2 on the second controller and the camera perspective will be dramatically altered - there is even a first-person view for both characters! With some of the camera angles, you can use the directional pad to rotate the action; and by pressing \square or \times you can even zoom in and out.

RANDOM STAGE SELECT

To fight on random stages during the two-player versus mode, press and hold Select until each bout begins.

COLISEUM STAGE

If you go to the Game Option screen and set the ring size to 20M, you can fight in the secret stage.

SEUNG'S VOICE

Totally pointless, but did you know that when you boot-up the game, one out of seven times the voice that says "Namco" at the start will be Seung Mi Na's instead of the usual bloke?

CHANGE SOPHITIA'S SKIRT COLOUR

Select Sophitia in Arcade mode and hold down all three attack buttons while the battle is loading in.

STREET FIGHTER ALPHA

COMPUTER-CONTROLLED DAN

Getting to fight a computer-controlled Dan is easy... and beating him is even easier. All you've got to do is win the fifth, sixth, or seventh match and hold Up + L2 + R2. Keep these buttons held down until the winning quote is displayed and then release. If this has

worked, you'll go to the next fight in the sequence and just before the blows start flowing, the immortal line 'Here Comes A New Challenger' will flash up on screen before you're whisked away to Dan's hidden location.

COMPUTER-CONTROLLED AKUMA

The twisted master can be accessed via two different methods. Firstly, you can try beating the game without losing a single round and also achieving a minimum of ten super combo finishes (that's ten victories with the 'S*' symbol displayed). Do this on any level higher than four and Akuma will stroll on and humiliate you after the final boss. Alternatively, try positioning your cursor over the character you wish to fight as on the character select screen and hold L2 + R2, then press and hold X. Hold the three buttons down until Akuma has pulverised your opponent, then fight.

SELECTING DAN

Go to the random select box on the character screen and hold L2. Now press the following code in sequence: Δ , \square , X, \square , Δ . If the code has worked, Dan will appear. To get Dan in his other strip, simply input the code backwards so it reads: Δ , \square , X, \square , Δ .

SELECTING AKUMA

During the character select screen, go to the random box and hold L2. Now press the following code in sequence: Δ , \square , X, \square , Δ (Δ = towards outside of character box). Akuma will appear as your character selection if the cheat has worked. To play as Akuma in his other strip, finish the code with \square , X, instead of \square , Δ .

SELECTING M BISON

Go to the random box on the character select screen and hold L2. Now press the following code in sequence: Δ , \square , X, \square , Δ (Δ = towards outside of character box). Alternatively, finish the sequence with \square , X (instead of \square , Δ) to get the Bison in alternate colours.

DRAMATIC BATTLE

If you reckon you're the business at *Street Fighter Alpha*, this hidden game will test your might to breaking point. If you complete the game on any skill level higher than four, a new option called 'Dramatic Battle' will appear in the options menu. Plug in two controllers and have an abled-bodied friend at the ready and you'll both take on Bison with Ken and Ryu. Fast, frantic and over nearly as soon as it begins, this battle sure is tough - especially seeing as both players share the same energy bar. Once you've obtained the Dramatic Battle option, save it to your memory card for evermore.

STREET FIGHTER ALPHA 2

WHITE DHALSIM & VEGA

Select Training Mode, choose Dhalsim or Vega, then start playing. Do the teleport move: at the instant the fighter disappears, press Start, go to the menu, highlight normal mode. Start again and your fighter will appear in white.

OLD-STYLE CHUN-LI

Hold down the Select button for five seconds before pressing one of the other buttons to select her.

FIGHTING TURBO AKUMA

To meet the Super Turbo Akuma character in arcade mode, simply battle through the game on any level setting and try to get at least eight Super Combo finishes before you reach the final match against your respective boss. Now, instead of fighting them straight away, the 'Here comes a new challenger' message will appear and Akuma will warp down onto that stage.

PLAY AS TURBO AKUMA

Highlight Akuma on the character-select screen and hold Select for a few moments. Now press the following sequence on the D-pad: Δ , \square , X, \square , Δ , \square , Δ , \square , Δ , and Δ - if you have followed this correctly your cursor should start and finish on Akuma. Now hold Select again and then push another button to select.

STREET FIGHTER EX PLUS ALPHA

(Japanese Version Only)

REVEALING HIDDEN CHARACTERS

Expert mode is the place to be, and completing the missions is the task at hand. For every time you complete a mission, you'll be given a certain number of points. As your points build, so does the characters available to you. The following is the points required, with the instructions telling you how to retrieve them:

Character	Points Needed
Evil Ryu	100
Evil Hokuto	200
Cycloid Gamma	300
Cycloid Beta	400
New Vega (M Bison)	600
New Garuda	800
New Gouki (Akuma)	1000

To select the 'New' Vega, Gouki or Garuda, move onto the appropriate character and hold Start (in Arcade Mode, the green gauge will vanish, and in the other modes the selection box will turn from white to yellow), then press any button. Now, these are the CPU counterparts that you have fought against before. Although similar to their 'Normal' counterpart versions, these guys inflict more, and take less damage.

When you have managed to get all seven characters, a barrel will appear; this keeps track of the missions completed. When you've performed 220 missions, the Options Plus menu will appear; in the options menu funnily enough! At first, there is only one option available, but as you complete the game in various ways, more options are revealed.

VS CPU GOUKI (AKUMA)

The Options Plus menu must be enabled for this to work. Set the 'Enemy' option to 'Plus'. You'll now be able to fight against CPU Gouki and Garuda; although you'll be unable to fight Dhalsim or Sakura.

Select a game on Arcade with any difficulty and settings. Now comes the tricky part: for eight missions straight you must NOT lose a round. During the tenth round, Gouki will appear and take out Vega with his Blink Hell Murder Super Combo. You now fight Gouki, and even if you were to lose, you'll be able to continue, or even pick another character.

Unlike in previous Street Fighter epics, you can still reach Gouki with Gouki or CPU Gouki. Plus you can finish any which way you like. Whether it be a normal, super or time out. When the ever tough CPU Gouki is no more, the following options become selectable in the 'Option Plus' menu. They only apply to the Training mode:

Training Partner

Fix (normal) or move (2-player against you). Only works when 2-player joystick plugged in port 2.

Super Combo Gauge

Three (normal) or infinite (gauge never changes).

Super Cancel Limit

On (normal) or off (cancel similar super combos)

Otedana

Off (normal) or on (opponent moves slower through air).

FIGHT CPU GOUKI BUG!

Following the steps above, when you

come to the match against Gouki, join the match on the second player side. Now, with the second player's fighter beat the crap out of player one. Then, before the 2-players vs CPU match commences, continue, pick a character and beat the second player. When the CPU battle finally begins, it will have reset to Battle 1. The match will still be against Gouki, but in Thailand! The next ten battles are against Gouki in other locations.

FIGHT CPU GARUDA

With any character, you must get two perfects and four super finishes before battle 10. On top of that, you must perform a level 3 super combo finish. If your character has a level 3 super (Gouki, Evil Ryu & Zangief), then that can be utilised.

Now, each character below must perform a combo at least once during the game that does the following number of hits:

Allen Snider & Darun Mister - 6-Hit Combo
Blair Dame, Cracker Jack, Ken, Pullum

TOTAL DRIVIN'

ACCESS ALL TRACKS

On the main options screen, use the R1 button of controller 1 to tap out the rhythm: "Ding dong, the witch is dead, the witch is dead, the witch is dead." (Use the flashing cursor as a metronome.) Then wait five seconds. If you've entered it correctly, you'll hear an engine roar. You can now race any of the six courses at each location - as the first five have "Track Complete" indicated.

ACCESS ALL SWITZERLAND LEVELS

Tap out the rhythm to the song "Doe, a deer, a female deer" (from The Sound Of Music!) on the main selection screen with the R1 button - use the flashing cursor on the screen to keep time.

Now wait a few seconds: if you've successfully entered the code, you'll hear an engine roar, and when you go to the Course Select option, all the Switzerland levels will have the words "Track Complete" across them.

ACCESS ALL MOSCOW LEVELS

As above, but replace "Doe, a deer..." with "Jingle bells, jingle bells, jingle all the way".

ACCESS ALL SCOTLAND LEVELS

As above, but replace "Doe, a deer..." with "Hark, where the night is falling", from Scotland The Brave.

ACCESS 4 PLAYER TRACKS IN 2 PLAYER MODE (AND VICE VERSA)

As above, but replace "Doe, a deer..." with "Zip-e-dee-doo-dah, zip-e-dee-ay".

Now, when playing in 2 Player Split-Screen mode, you will be given access to six new tracks. Also, when playing in 4 Player Link-Up mode, you will be able to race the tracks usually reserved for two-player racing.

ACCESS ALL HONG KONG LEVELS

On the main options screen, use the R1 button of controller 1 to tap out the rhythm to: "Deck the halls with boughs of holly", then wait 5 seconds. If you've entered the code correctly, you'll hear an engine roar and the words "Track Complete" will appear on any Hong Kong level selected.

ACCESS ALL EASTER ISLAND LEVELS

As above, but tap out the rhythm: "Happy Birthday to you, Happy Birthday to you."

ACCESS ALL EGYPT LEVELS

As above, but tap out the rhythm: "Always look on the bright side of life." (It's a tricky one, though! Try "side" instead of "side".)

ACCESS MULTI-PLAYER SUICIDE MODE

Tap out the rhythm: "Supercalifragilisticexpialidocious" to activate the Suicide Mode. Select an 'A' track in split-screen mode and you'll race around the track in opposite directions!

HIDDEN TRACKS:

To activate the hidden tracks you must be team Ahmad.

MOSCOW 2

Near the end of the course you will see a ramp: use it to jump over the left-hand wall where the level warp is located beside a building. When you enter it, the screen will shrink and the words 'loading extra level' will appear.

EGYPT 1

After you've crossed the third bridge, you'll see a building. Use the ramp on the right to get to it, then drive around to get into the level warp.

SCOTLAND 3

Just before you get to the woods, hit the cliff on the right so that you land on the right-hand side of the woods. Drive straight forwards into the sign and you should hit the level warp.

SWITZERLAND 1

Follow the track through the village and under the cable-car. You will enter a tunnel, which you should continue through until you cross a small bridge. To your left are a number of buildings. Drive off the road and around the back of these buildings. You will see a yellow and red spinning shape. Drive into it.

HONG KONG 5

Drive around until you reach a dirt track. Once on the latter, you will eventually come to a small low bridge across a small stream. Get off the road and quickly try to drive under the bridge. Drive into the orange ball under the bridge in the middle of the stream to start the bonus level.

EASTER ISLAND 2

From the start, turn your car around and drive to where you can see a cruise ship. On your left-hand side you'll find a red and white barrier, and behind that is a small road. At the end of that road you'll find a level warp (the easiest way to go over the barrier is on the right side).

WCW VS THE WORLD

HIDDEN FIGHTERS
By beating the eight bosses in the game, they're added to the list of playable fighters and can be used in any mode except the league challenge.

First, do a league challenge and fight with a JR class wrestler. Win all six divisions with the same guy and you will fight a boss. In WCW it's Jeff Jarret. There are others such as Major Tom, Steel Talon, and Grizz Lee.

If you win all six divisions there will be a new division called Super JR. Win in that and the penultimate hidden fighter is Jaguar.

Then go on and do the same thing with a heavyweight class. You will fight the same bosses through the six divisions. Winning them all reveals a new Super Heavy division whose boss is The Giant - the final hidden fighter.
